# ACADEMIC INFORMATION

## ACADEMIC HONESTY

James Heffernan's text Writing: A College Handbook defines plagiarism as:

“Presenting the works or thoughts of another writer as if they were your own. When you submit a paper that is wholly or partly plagiarized, you are taking credit or asking the teacher to give you credit, for work done by someone else. This is dishonest or wrong. Whenever you use a source in any way without documenting the source you commit plagiarism.” Consequences for plagiarism, cheating on assessments, or any other academic dishonesty may include, but not be limited to, suspension from school and a zero on the assignment.

## GRADES

The importance of good grades honestly earned cannot be over-emphasized. They are among the strongest recommendations a student can receive. Grades often fail to measure all that a student knows or has learned, but are the best generalization or overall indication of a student's status in a subject field.

Grades for students will be determined by tests, daily work, projects, and class participation. This encourages the development of the total student. Final grades may be withheld until course requirements are satisfactorily completed.

## PROGRESS REPORTS

Student academic progress will be continuously assessed and reported three times a year. Students who are not achieving satisfactory progress will be notified bi-weekly or at any time prior to the close of the ranking period. Parents and/or students with concerns about progress evaluations are encouraged to bring these concerns to the teacher immediately.

## POWER SCHOOL ACCESS

Parents will have access to their student's academic progress and other information online through our student information system – PowerSchool. Contact the main office or your student's teacher or advisor to learn how to access this information at <http://powerschool.rsu10.org/public/>.

## REPORT CARDS

Report cards are issued following each trimester. Report card grades are computed on a 4.0 scale and reported by letters. Please note that only final grades of C- or above will be awarded graduation credit.

<u>Letter grade</u>	<u>GPA</u>
A+	4.0
A	3.75
A-	3.5
B+	3.25
B	3.0
B-	2.75
C+	2.5
C	2.25
C-	2.0
D+	1.75
D	1.5
D-	1.25
F	0.0

## **HONOR ROLL**

High Honor Roll is earned by students receiving no grade lower than an A minus. Any student receiving all grades of A- or higher will be awarded a pass entitling the student to free admission to all school events during the next trimester. Honor Roll is earned by students receiving no grade lower than B minus.

## **GRADUATION REQUIREMENTS:**

To be eligible for graduation every student must successfully complete a minimum of 24 credits. All students are encouraged to participate in co/extracurricular activities. These activities offer students the opportunity to learn new skills, to compete in a variety of sports, to experience being part of a team, to develop character, positive attitudes and self-discipline, to demonstrate leadership and to realize personal accomplishments. All students participating in co-curricular and extra-curricular activities must meet academic and behavioral eligibility requirements. A student who is absent unexcused from school, or arrives unexcused at school after 9:30 a.m., is not permitted to participate in any school activities that day or evening without prior permission granted by the administration. # ATTENDANCE INFORMATION

## ATTENDANCE EXPECTATIONS

It is our district's position that regular school attendance is very important for all students. As we develop formative learning standards for all students, it will be virtually inconceivable for students to miss a lot of school and achieve at a level consistent with their abilities. Learning is incremental and it demands the daily synergy of a core of learners deeply engaged in the pursuit of academic study. Each learner is regarded as a valued member of the learning community and missing school impairs the learning for all students.

The responsibility for regular school attendance is a joint effort between the parent, student and the school. The guidance office and the Dean of Students accept the responsibility of implementing proactive practices that will improve student attendance, will regularly communicate the importance of daily school attendance, and underscore this as a message to all students.

## Excused and Unexcused Absences

Under Maine law, a student's absence may be excused for the following reasons:

1. Personal illness;
2. An appointment with the health professional that must be made during the regular school day;
3. Observance of a recognized religious holiday when the observance is required during the regular school day;
4. A family emergency; or
5. A planned absence for a personal or educational purpose, which has been approved.

In addition, students will be excused when they are participating in a school-approved activity or field trip, or when they are suspended from school.

All other absences are considered unexcused.

## Absence Reporting

Daily attendance in school is taken during the advisor/homeroom block. Parents are requested to notify the school of students' absence prior to 8:00 am (336-2151). Parents are encouraged to monitor reported student absences by accessing Power School online. Power School online provides parents with a daily and period record of student absences.

**A student who has been absent from school must report to the office with a written note from his/her parents/guardian before he/she will be admitted to class.** This note becomes part of the permanent attendance file, which is kept in the main office. All students, even in cases of prior parental contact, should bring in a note for re-admittance. Notes must include the name of the student, the date, the reason for the absence, and a telephone number where the parent may be reached during the day to verify the note if the administration desires.

## Tardiness

A tardy to school is reporting late to the first assigned class period, including advisory, any time after the final morning bell (7:50 a.m.). Tardy students must report to the main office to receive an admittance pass, prior to going to their scheduled class. Students will not be admitted to class without an admittance

slip. Excessive tardies for unexcused reasons will result in disciplinary action.

### **Truancy**

A student is habitually truant under Maine law if the student has the equivalent of ten full days of unexcused absences or seven consecutive school days of unexcused absences during a school year. RSU #10 follows the procedure required by Maine law when addressing student truancy

### **Dismissals**

After arriving at school, students may not leave prior to the completion of their last regularly scheduled class unless the school nurse, attendance secretary, or administration has properly dismissed them. The school is considered liable for the safety of students during school hours. Therefore, students may not leave school at any time without permission. If students leave school without proper permission, they will be subject to disciplinary action.

To be officially dismissed from school for illness or injury, a student must go to the school nurse for a dismissal note. The nurse will contact a parent/guardian before allowing the student to go home.

Any student wishing to be dismissed for any reason must first present a signed parental note stating the reason for the dismissal. Students should present this note to the secretary before 8:00 am on the day of dismissal. This note should include the phone number of a parent or of a legal guardian.

### **Perfect Attendance Award**

Any student who achieves perfect attendance for the entire school year with no absences (other than for religious holidays), dismissals (other than for extra-curricular activities), or tardies will be awarded a pass that entitles that student to free admission to all school events (sports events, dances, concerts, and plays) during the next school year.

### **Participation in School Activities**

Students are expected to attend all assigned classes. If there is a need to leave the classroom, students must first report to the classroom teacher for permission and a pass. Absence from class without permission is subject to disciplinary action.

A student who is absent unexcused from school, or arrives unexcused at school after 9:30 a.m., is not permitted to participate in any school activities that day or evening without prior permission granted by the administration. In addition, a student who leaves school grounds for any reason other than an excused dismissal will not be eligible to participate in any school activities that day or evening without prior permission granted by the administration. This does include any weekend activity if the absence occurs on Friday. This is for all school co-curricular activities including practices, performances and games.

## **OTHER INFORMATION FOR STUDENTS**

### **ACCIDENTS**

All accidents or injuries on school grounds or during school-approved activities must be reported to the main office immediately and an accident form completed. Students needing medical attention should see the school nurse.

### **APPROPRIATE ATTIRE (the complete policy JICA can be found on page 41 of this handbook)**

Students are expected to wear appropriate attire at all times. The following are intended to ensure that one's attire does not disrupt the educational process. Students, who are found to be dressed inappropriately, will be required to correct the inappropriate clothing or will be sent home to change such clothing.

1. Shirts and shoes must be worn at all times. Hoods covering heads are not permitted.
2. Undergarments must be fully covered. Excessively tight garments are prohibited.
3. Decorations or drawings with vulgar, violent, or profane lettering are prohibited, as are those that advertise or promote drugs, alcohol, or tobacco.
4. Skirts & shorts must reach mid-thigh.
5. Strapless tops and tops that have a low-cut neckline and therefore are too revealing are prohibited. Spaghetti straps are also not permitted. All shirts must touch the top of pants when in a standing position.
6. Spiked clothing containing metal studs that pose a safety concern are prohibited.
7. HATS – Students may wear hats before and after school as well as during passing time and lunchtime. Students may wear hats in the classroom at individual teacher's discretion.

### **ASSEMBLIES AND RALLIES**

Performers, speakers, groups, etc. are here as our guests, as well as for education and entertainment. Students set the tone, atmosphere, and impression of the school. Regardless of the type of program, common courtesy must always prevail. Talking, whispering, whistling, stamping feet, clapping out of order, booing, and lack of respect are most discourteous and are not acceptable. Should this occur, it will mean immediate removal of the individual(s) and may hinder the possibility of future assemblies. Students will be given specific instructions before each assembly regarding proceeding to the auditorium or gym. Teachers will sit among students.

### **BATHROOMS**

Students are allowed to use the bathrooms before school, between classes, at lunch, and after school without written permission. During class-time, students may – with a pass - use the bathrooms only in an emergency. Students may not loiter in the bathrooms at any time.

### **BUSING INFORMATION**

All board policies and school rules are in effect on school buses. Students who have disciplinary problems on school buses may have their riding privileges suspended or revoked by the principal. In such cases the parent/guardian is responsible for transporting the student.

### **CANCELLATION AND DELAYED OPENINGS**

The RSU #10 Board of Directors authorizes the Superintendent to cancel or close school(s), delay opening, or dismiss school(s) early in the event of severe weather, hazardous travel conditions, or other emergencies which present threats to the safety of students and staff. School cancellation or delays due to the weather will be reported on radio stations, TV channels, and on the district website. The district will also notify families via phone by the ALERT NOW system.

When school is closed for the day or dismissed early, all after-school and evening school-sponsored activities and community use of school facilities will be cancelled or postponed. If circumstances change

such that re-opening facilities would be feasible, the Superintendent or his or her designee may use his or her discretion to re-open the District facilities for after school or evening activities.

It is the families' responsibility to keep accurate contact information updated in the ALERT NOW system. When school is in session, it remains the responsibility of parents to decide whether or not their children shall attend school under the existing conditions. Storm days lost in excess of the number provided for in the school year calendar will be made up as determined by the Board.

### **CODE OF CONDUCT FOR STUDENTS**

The student code of conduct has been developed with input of staff, students, parents and the community. This Code defines our expectations for student behavior and provides the framework for an orderly and respectful environment that is safe physically, socially, emotionally, and academically. Refer to page 16.

### **DIRECTORY INFORMATION**

During the year, RSU #10 may release information related to students and their activities. Such information will be in the category of Directory Information as determined by the RSU and permitted in the Family Education Rights and Privacy Act of 1974. Parents of students may refuse to permit the designation of any or all of the categories of personally identifiable information with respect to that student as directory information. Such refusal must be stated in writing to the Principal of the school within two weeks of the distribution of each handbook. ### **ETHICS AND THE CURRICULUM**

The School Board believes that promoting ethical and responsible behavior is an essential part of the educational mission. The Board encourages schools to provide students with meaningful opportunities to apply values and ethical responsible behavior through activities such as problem solving, service learning, peer mediation and student government/leadership development. The Board recognizes that ethics, constructive attitudes, responsible behavior, and "character" are important if a student is to leave school as a "responsible and involved citizen," as described in the Guiding Principles of the Maine Learning Results.

### **FIELD TRIPS**

Occasionally students may go on field trips or extra-curricular excursions. Parents are required to complete and sign permission slips and health forms for a student to participate on a field trip.

### **HARASSMENT**

RSU #10's Board of Directors prohibits harassment of students because of race, color, sex, religion, ancestry or national origin, disability or sexual orientation. Such conduct is a violation of Board policy and may constitute illegal discrimination under state and federal laws. The complete RSU #10 policy ACAA is located online at the district web site and at the end of this handbook. Refer to page 27.

## **HAZING**

We at RSU #10 want to ensure that our schools are friendly, welcoming, unbiased places to learn. Maine statute defines injurious hazing as “any action or situation, including harassing behavior that recklessly or intentionally endangers the mental or physical health of any school personnel or a student enrolled in a public school.” Injurious hazing activities of any type, either on or off school property, by any student, staff member, group or organization affiliated with this school unit, are inconsistent with the educational process and shall be prohibited at all times. Refer to page 28.

## **HIGHLY QUALIFIED TEACHERS**

The RSU shall notify the teacher in writing about any parental requests for information about the teacher's qualifications and the information provided by the RSU in response to the request.

## **LOCKERS**

Each student will be assigned a locker for keeping books, projects, coats, etc. However, it is strongly recommended that students do not leave money, pocketbooks or other items of value in them. Each student is responsible for keeping his/her locker clean and in good mechanical condition. Students will not be allowed to leave the above areas until the end of the lunch period unless receiving permission from a staff on duty.

The Board has adopted a comprehensive policy concerning the administration of medications at school. Parents may request that medications be administered at school in accordance with the established procedure. Students may not carry or self-administer medications except as permitted by board policy. Questions should be directed to the school nurse. The complete RSU #10 policy JLCD is located online at the district web site and at the end of this handbook. Refer to page 26 for more health care information.

## **NATIONAL HONOR SOCIETY ADMISSION POLICY**

The Rachel Purkis Chapter of the National Honor Society recognizes and thus honors students who are selected for membership based on scholarship, service, leadership, and character. The selection procedure follows all national guidelines. Students become eligible at the end of their fourth trimester.

Students who have a cumulative average of at least 3.0 are candidates for membership. They are then evaluated on the basis of service (both in school and community), leadership, and character and selected by a majority vote of the five-member faculty council.

To aid in this evaluation, all candidates are surveyed to obtain information regarding service and activities. Membership is not automatically guaranteed. The council will consider candidates who:

1. have attended Buckfield Jr./Sr. High School at least one trimester
2. are enrolled in at least five courses - waivers can be granted for this policy by the Principal.
3. have not missed more than 11 days in any high school year except under special circumstances.
4. have participated in at least 3 activities
5. submit a brief essay on an assigned topic

All faculty members are given the opportunity to rate candidates in the areas of leadership and character. Using the information provided by candidates and faculty, the faculty council votes on membership using a point system.

Middle school students report to the middle school wing at 7:40.

The only exceptions to the above are students going to the library or to meet with a teacher if they have prior written permission. Students wishing to go to the library or meet with a teacher must request permission from a teacher on duty. Only students who are attending school-sponsored activities or activities supervised by a staff member or coach may be in school after 3:00 p.m. ALL others must leave the building. Loitering will not be permitted.

### **SCHOOL SPIRIT**

School spirit may be divided into four categories:

1. Courtesy toward teachers and staff, fellow students, and guests to our school.
2. Pride in everything our school endeavors to accomplish and has accomplished.

4. School spirit means loyalty to all aspects of the school. Loyal students support their school and do their utmost to keep athletic and academic standards at the highest possible level.

### **SENIOR CLASS TRIP**

However, the district shall assume **no** responsibility for damage to cars or theft of cars or articles from cars. Permission to park on school property may be rescinded by the administration for any person who does not observe the regulations and/or signs as posted.

Students driving to school must have a parking permit issued by the main office to park on school grounds. Students who wish to park on school grounds during the school day must apply for a parking permit at the principal's office. When applying, students need to know the make of vehicle and license plate number. Permit fee is \$1.00 if purchased by September 13th and \$3.00 thereafter. Vehicles parking without a permit will be towed at the owner's expense. Parking is not allowed on Route 140.

Students who drive irresponsibly on or near school property may be referred to the Sheriff's Department or State Police. Motorized vehicles not registered for highway use are not allowed on school property. Unsafe driving will result in a suspension or loss of parking privileges.

Parking lots may be patrolled and students' vehicles may be searched.

If you need more information, please contact the principal or the guidance counselor.

## **STUDY HALLS (Learning Labs)**

Study halls (Learning Labs) are established for each period of the day for the purpose of academic work. Students are expected to engage in a constructive learning activity for the entire period. Students should work quietly and independently. Up to twelve students per period may be allowed to go to the library where they must remain for the entire period. Studying in small groups and quiet socializing will be allowed at the discretion of the teacher. Students may not sleep or play cards in study hall. Students seeking to go to another teacher should have a pre-signed pass from the receiving teacher. The beginning of study hall is not the time to request the pass.

## **TELECOMMUNICATION DEVICES**

While on school property or while attending school-sponsored or school-related activities, whether on or off school property, students shall be permitted to possess and use personal telecommunications devices as defined by law and other related electronic devices, including, but not limited to, cell phones, camera phones, personal digital assistants (PDAs), and pagers, provided they observe the following conditions:

1. Devices shall not be used in a manner that disrupts the educational process, including but not limited to, posing a threat to academic integrity or violating confidentiality or privacy rights of another individual. Use of any telecommunication device must never intrude into the privacy of others or to be used for humiliation, personal violation or embarrassment.

In order to promote the health and safety of all students and staff and to promote the cleanliness of all facilities, the Board prohibits smoking and the use of all other tobacco products in school buildings, facilities and on school buses during school-sponsored events and at all other times on school grounds by all persons, including students and employees. The complete RSU #10 policy ADC, and the administration policy ADC-R, are located online at the district web site and on page 25 of this handbook.

## **PROGRESSIVE DISCIPLINE PROCEDURE**

All student discipline will be applied consistent with school board policy and administrative procedure as outlined in the Student Handbook. Unfortunately, there are times when interventions and consequences listed above are unsuccessful in changing unacceptable student behavior. For that reason, the following Levels of Discipline are intended to address **chronic behavioral problems**.

### **Level I**

1. Students who have been assigned in excess of ten hours of office detentions will be placed on Level I.
2. Students who have been suspended from school in excess of five days will be placed on Level I.
3. If a student is on Level I, any office referral will result in at least one-day suspension from school.

Detention will not be assigned because the number of hours of detention already assigned and the number of days suspended indicate a chronic pattern of inappropriate behavior which must be dealt with assertively.

4. Students who are on Level I will be subject to lunch restriction and will lose senior privileges.

## **Level II**

1. Students who have been issued in excess of ten days suspension will be moved from Level I to Level 2.
2. Students who receive a ten day suspension will automatically be placed on Level 2; and
3. If a student is on Level 2, any office referral will result in a ten day suspension from school and referral to the superintendent for further referral to the school board for possible expulsion from school. The school board may expel the student until such time as the student provides evidence that the behaviors which led to the expulsion have been addressed and corrected. Or the board may place the student on Level 3 of the discipline code. This is a probationary placement. Any further disciplinary infraction may result in an expulsion hearing.
4. A student on Level 2 or Level 3 may not participate in or attend extracurricular contests, participate in co-curricular activities, or in scholastic activities which places considerable trust in the ability of students to control their own behavior (i.e., Winter Carnival, Carnival Ball, non-academic field trip, etc.)

## **Level III**

1. When on Level 3, any discipline referral will result in an expulsion hearing with the school board.  
**Any student may petition the building Principal to move to a lower disciplinary level if for twenty school days he/she has exhibited exemplary behavior in school. Granting of that petition will be at the discretion of that administrator.**

The Superintendent will determine appropriate sanctions for harassment of students by persons other than school employees and students.

The Superintendent, Building Administrator, and /or Affirmative Action Officer will investigate complaints of harassment in accordance with the Student Discrimination and Harassment Complaint Procedure. School employees, students, and parents shall be informed of this policy/procedure through handbooks and/or other means selected by the school administration.

## **STUDENT DISCRIMINATION AND HARASSMENT COMPLAINT PROCEDURE**

## **HAZING**

RSU #10 Policy ACAD

We at RSU #10 want to ensure that our schools are friendly, welcoming, unbiased places to learn. Maine statute defines injurious hazing as “any action or situation, including harassing behavior that recklessly or intentionally endangers the mental or physical health of any school personnel or a student enrolled in a public school.”

Injurious hazing activities of any type, either on or off school property, by any student, staff member, group or organization affiliated with this District, are inconsistent with the educational process and shall be prohibited at all times.

“Harassing behavior” includes acts of intimidation and any other conduct that recklessly or intentionally endangers the mental or physical health of a student or staff member.

“Acts of intimidation” include extortion, menacing, direct or indirect threats of violence, incidents of violence, bullying, statements or taunting of a malicious and/or derogatory nature that recklessly or intentionally endanger the mental or physical health of another person, and property damage or theft.

No administrator, faculty member, or other employee of the school unit shall encourage, permit, condone, or tolerate injurious hazing activities. No student, including leaders of students’ organizations, shall plan, encourage, or engage in injurious hazing activities.

Students who violate this policy may be subject to disciplinary action which may include suspension, expulsion, or other appropriate measures. Administrators, professional staff, and all other employees who violate this policy may be subject to disciplinary action up to and including dismissal.

In the case of an organization affiliated with this District that authorizes hazing, penalties may include rescission of permission for that organization to operate on school property or to receive any other benefit of affiliation with the District.

Persons not associated with this District who fail to abide by this policy may be subject to ejection from school property and/or other measures as may be available under the law.

These penalties shall be in addition to any civil or criminal penalties to which the violator or organization may be subject.

The Superintendent/designee shall be responsible for administering this policy. In the event that an individual or organization disagrees with an action—or lack of action—on the part of the Superintendent/designee as he/she carries out the provisions of this policy, that individual or organization may appeal to the Board. The ruling of the Board shall be final.

This right to appeal does not apply to student suspensions of 10 days or less or to matters submitted to grievance procedures under applicable collective bargaining agreements. A copy of this policy shall be included in all school, parent, and employee handbooks or otherwise distributed to all school employees and students.

## **TOBACCO USE AND POSSESSION –**

RSU #10 Policy ADC

The RSU #10 believes that tobacco use is the most preventable behavioral factor contributing to illness, disability, and death. In order to promote the health and safety of all students and staff and to promote the cleanliness of all facilities, the Board prohibits smoking and the use of all other tobacco products in school buildings, facilities and on school buses during school-sponsored events and at all other times on school grounds by all persons, including students and employees. This means

no tobacco use at any time, 24 hours a day, 365 days a year, by anyone on school property or at any school- sponsored functions.

RSU #10 prohibits tobacco advertising on any clothing, such as T-shirts or hats, worn to school or to school-sponsored activities.

In addition, students are further prohibited from possessing, selling, distributing or dispensing tobacco products in school buildings, facilities and on school grounds and buses during school- sponsored events and at all other times.

Employees and all other persons are also strictly prohibited, under law and this Board's policy, from selling, distributing or in any way dispensing tobacco products to students.

Because tobacco use leads to dependency, the Board is committed to comprehensive school health education programs which will provide information to students and staff regarding the effects and possible consequences of tobacco use as well as instruction to students on avoiding tobacco use.

The District will provide information on how to access cessation programs for students and staff.

This tobacco policy will be printed in employee and student handbooks and posted in appropriate employee work areas both inside and outside the schools of the district. Parents/guardians should also be sent notification in writing of this tobacco policy in the student handbooks. Staff will be informed of the policy through the employee handbook at the beginning of the school year and the local media will be asked to communicate this tobacco free policy community-wide.

## **TOBACCO USE AND POSSESSION ADMINISTRATIVE PROCEDURE** RSU #10 Policy ADC-R

Violation of the Tobacco Use and Possession Policy will be dealt with as specified within this procedure. The consequences and procedures set forth below may be modified by the administration when warranted by the specific circumstances of the particular case.

The Building Administrator or his/her designee will contact law enforcement anytime a minor student under the age of eighteen (18) has been found to violate this policy. However, the Building Administrator/designee shall refer to a law enforcement agency any student reasonably suspected of selling, dispensing, or distributing tobacco products.

### **STUDENTS**

#### **A. First Offense**

Student will be suspended for three days. Parents will be called and notified in writing of the offense. Parents will receive a letter regarding cessation programs available for their child and will receive information as to how they may provide additional support for their child to quit smoking. The student will then be referred to the school nurse, or other appropriate school personnel as deemed necessary. If appropriate the student will be referred to the building's Student Assistant Team (SAT). At the initial appointment the student will be provided with the following:

1. Information regarding tobacco use;
2. A list of agencies and/or clinics where assistance can be found or referrals to appropriate outside agencies; and
3. Attendance at an age-appropriate cessation program.

#### **B. Second Offense**

Students will be suspended for five days. Parents will be called and notified in writing of the offense. If appropriate the student will be referred to the building's SAT. At the appointment the student will be provided with the following:

1. Referrals to appropriate outside agencies;
2. Attendance for a second time at a cessation program and/or a referral for further medical assistance regarding addiction.

**C. Subsequence Offenses** Students will be suspended for ten days and referred to the Superintendent and/or the School Board for possible expulsion.

In all cases the student's needs will be evaluated and information and support provided.

### **OTHER PERSONS IN VIOLATION**

All other persons violating this policy, e.g., employees, visitors, shall be immediately directed to cease the behavior. In addition, all persons suspected of selling, distributing or in any way dispensing tobacco products to minor students shall be referred to a law enforcement agency. Any employee violating this policy shall be subject to disciplinary measures.

### **NOTICES**

This Board's policy and corresponding disciplinary actions for infractions of this policy shall be printed in employee and student handbooks. Communications may include but are not limited to: making announcements at all outdoor events; posting

of signs in appropriate places on school property; publishing notices in local newspapers at the beginning of each school year; posting the tobacco-free policy on the school district web site and documenting the policy in staff and student handbooks.

## **BOMB THREATS**

RSU #10 Policy EBCC

The RSU #10 recognizes that bomb threats are a significant concern to the school unit. Whether real and carried out or intended as a prank or for some other purpose, a bomb threat represents a potential danger to the safety and welfare of students and staff and to the integrity of school property. Bomb threats disrupt the instructional program and learning environment and also place significant demands on school financial resources and public safety services. These effects occur even when such threats prove to be false.

Any bomb threat will be regarded as an extremely serious matter and treated accordingly. The Board directs the Superintendent to react promptly and appropriately to information concerning bomb threats and to initiate or recommend suitable disciplinary action.

### **A. Conduct Prohibited**

No person shall make, or communicate by any means, whether verbal or non-verbal, a threat that a bomb has been, or will be, placed on school premises. Because of the potential for evacuation of the schools and other disruption of school operations, placement of a bomb or of a “look-alike” bomb on school premises will be considered a threat for the purpose of this policy.

**It is also a violation of Board policy to communicate by any means that any toxic or hazardous substance or material has been placed, or will be placed, on school premises with the intent to endanger the safety and welfare of students or staff and/or to disrupt the operations of the schools. For the purpose of this policy, “toxic or hazardous substance or material” means any material or substance, including biomedical materials or organisms, that, when placed as threatened, could be harmful to humans.**

### **B. Definitions**

1. A “bomb” means an explosive, incendiary or poison gas bomb, grenade, rocket, missile, mine, “Molotov cocktail” or other destructive device.
2. A “look-alike bomb” means any apparatus or object that conveys the appearance of a bomb or other destructive device.
3. A “bomb threat” is the communication, by any means, whether verbal or non-verbal, that a bomb has been, or will be, placed on school premises, including possession or placement of a bomb or look-alike bomb on school premises. “School premises” means any school property and any location where any school activities may take place.

**C. Development of Bomb Threat Procedures** - The Superintendent/designee shall be responsible for developing and implementing procedures specific to bomb threats as part of the school unit’s Crisis Response Plan. These procedures are intended to inform administrators and staff of appropriate protocols to follow in the event that a bomb threat is received and should include provisions to address:

1. Threat assessment (for the purpose of identifying a response that is in proportion to the threat, in light of what is necessary to ensure safety);
2. Building evacuation and re-entry (including selection of potential alternative sites for those who are evacuated);
3. Incident “command and control” (who is in charge, and when);
4. Communications, contacts and mandatory bomb threat reporting;
5. Parent notification process;
6. Training for staff members; and
7. Support services for students and staff.

The initial bomb threat procedure will be subject to approval by the Board. The Superintendent/designee will be responsible for overseeing a review or evaluation of bomb threat procedures prior to the Board’s required annual approval of the school unit’s Crisis Response Plan, or following implementation of the procedure in response to a specific threat.

**D. Reporting of Bomb Threats**- A student who learns of a bomb threat or the existence of a bomb on school premises must immediately report such information to the building principal, teacher, the School Resource Officer or other employee in a position of authority.

An employee of the school unit who learns of a bomb threat shall immediately inform the building administrator. The building administrator shall immediately take appropriate steps to protect the safety of students and staff in accordance with the school unit's bomb threat procedure, as developed under Section C, and inform the Superintendent of the threat.

All bomb threats shall be reported immediately to the local law enforcement authority, as provided in the bomb threat procedures.

The Superintendent shall be responsible for reporting any bomb threat to the Department of Education within two business days of the incident. Reports will include the name of the school, the date and time of the threat, the medium used to communicate the threat, and whether or not the perpetrators have been apprehended.

- E. *Student Disciplinary Consequences* - Making a bomb threat is a crime under Maine law. Any student suspected of making a bomb threat shall be reported to Law Enforcement authorities for investigation and possible prosecution. Apart from any penalty imposed by law, and without regard to the existence or status of criminal charges, a student who makes a bomb threat shall be subject to disciplinary action by the school.

The administration may suspend and/or recommend for expulsion any student who makes a bomb threat. The making of a bomb threat will be considered deliberately disobedient and deliberately disorderly within the meaning of 20-A M.R.S.A. § 1001(9) and will be grounds for expulsion if found necessary for the peace and usefulness of the school.

In addition, a student who is found, after a hearing by the Board, to have brought a bomb to school shall be expelled from school for at least one year in accordance with 20-A M.R.S.A. § 1001(9-A) and Policy JICIA, except that the Superintendent may modify the requirement for expulsion based on individual circumstances.

A student who has been identified through the IEP process as having a disability and whose conduct in violation of this policy is related to the disability shall be disciplined as provided in Policy JKF.

- F. *Aiding Other Students in Making Bomb Threats*

A student, who knowingly encourages, causes, aids or assists another student in making or communicating a bomb threat shall be subject to the disciplinary consequences described in Section E of this policy.

- G. *Failure to Report a Bomb Threat*

A student who fails to report information or knowledge of a bomb threat or the existence of a bomb or other destructive device in a school building or on school property may be subject to disciplinary consequences, which may include suspension and/or expulsion.

- H. *Staff Disciplinary Consequences*

A school system employee who makes or communicates a bomb threat will be reported to appropriate law enforcement authorities and will be subject to disciplinary action up to and including termination of employment. Disciplinary action taken shall be consistent with collective bargaining agreements, other employment agreements and Board policies.

A school system employee who fails to report information or knowledge of a bomb threat or the existence of a bomb on school premises will be subject to discipline up to and including termination of employment.

- I. *Civil Liability*

The school unit reserves the right to bring suit against any individual responsible for a violation of this policy and to seek restitution and other damages as permitted by law.

- J. *Lost Instructional Time*

Instructional time lost as a result of a bomb threat will be rescheduled at the earliest appropriate (or: practicable) opportunity, as determined by the Board **as determined by the Superintendent within parameters set by the Board.**

Time lost may be rescheduled on a weekend or vacation day, or after what would normally be the last day of the school year, except on days when schools must be closed as required by law.

*Notification Through Student Handbook* - All student handbooks shall address the school unit's bomb threat policy and procedures and explain the educational consequences of bomb threats. In addition, student handbooks shall notify students and parents that bomb threats violate Board policy and civil and criminal law.

## PEST MANAGEMENT IN SCHOOL FACILITIES AND ON SCHOOL GROUNDS

RSU #10 Policy EBC

Pests can pose significant problems to people, property and the environment. Pesticides pose similar risks. Children spend a great deal of time in schools and face greater potential for health effects resulting from pest and pesticide exposure. By

reducing reliance on pesticides and incorporating low-risk control options, Integrated Pest Management (IPM) reduces both pests and pesticide risks. It is, therefore, the policy of this school to apply IPM techniques for controlling pests in school buildings and on school grounds.

#### Integrate Pest Management Techniques

IPM relies on pest monitoring and the most economical and least hazardous combination of cultural, physical, biological and /or chemical controls to prevent unacceptable levels of pest activity and damage. The school will develop a site plan for each locality on school property that may experience pest problems. These plans will incorporate IPM and outline specific management tactics.

The full range of management options, including no action at all, will be considered. The choice of using a pesticide is based on a review of all other available options and a determination that these options are not acceptable or are not feasible. Non-pesticide pest management methods are used whenever possible. Direct action will be used only when specific pest thresholds are reached. When it is determined that a pesticide must be used, the least hazardous material and method of application will be chosen. Pesticide applications will be timed to minimize their impact on school grounds. All pesticides including disinfectants, fungicides, herbicides, insecticides, rodenticides, repellants and wood preservatives will be handled according to state and federal law.

#### Pest Management Objectives

- Maintain a safe and sustainable school environment.
- Protect human health by suppressing pests that threaten public health and safety.
- Reduce exposure of humans, particularly children, to pesticides.
- Reduce or prevent pest damage to school properties
- Reduce environmental pollution.
- Reduce the costs of pest management.
- Prevent pests from spreading beyond school property.
- Enhance the quality of life for students, staff and others using school property.

#### IPM Coordinator

The school has appointed an IPM Coordinator responsible for overseeing implementation of the IPM Policy and site plans. The coordinator is the Director of Buildings, Grounds & Transportation and may be reached at the Office of Superintendent of Schools.

The IPM Coordinator's responsibilities will include:

- Recording all pest sightings by school staff and students.
- Recording all pesticide use and making the records available to parents, guardians or staff.
- Making a copy of this policy and specific pesticide information (pesticide labels and material safety data sheets) available to parents, guardians or staff.
- Coordinating management activities with pest control contractors.
- Approving appropriate pesticide applications – methods, materials, timing and location.
- Assuring that all of the pest control contractor's recommendations on maintenance and sanitation are carried out where feasible.
- Posting and notification of pesticide applications.
- Evaluating the school's progress in implementing the IPM plan.

#### Education

The school community will be educated about potential pest problems and IPM methods used to achieve the pest management objectives. From the very beginning, IPM should involve people from all segments of the school community.

#### Record Keeping

Pest sighting data sheets and pest control records will be kept current and accessible to verify the need for treatments and track the effectiveness of management activities. Pesticide records shall be maintained on site and meet the requirements of the Maine Board of Pesticides Control.

#### Notification/Posting

Within the first two weeks of every school year a notice will be provided to school staff, students and parents or legal guardians briefly explaining the school's pesticide use policy. The notice will indicate that pesticides may be used both indoors and outdoors, as needed, and that applications will be noticed in accordance with the Board of Pesticides Control's Chapter 27: *Standards for Pesticide Application and Public Notification in Schools*. Notification will be given at least five days before planned pesticide applications. Pesticide application notices will also be posted at least 48 hours in advance inside school buildings and on school grounds. Notification need not be given for pesticide applications recognized by law to pose little or no risk of exposure to children or staff.

#### Pesticide Storage and Purchase

Pesticide purchases will be limited to the amount authorized for use during the year. Pesticides will be stored in an appropriate, secure site that is not accessible to students or unauthorized personnel and disposed of in accordance with label directions and state regulations.

#### Pesticide Applicators

Any person applying pesticides in school buildings or on school grounds will be trained in the principles and practices of IPM and licensed by the state as a commercial pesticide applicator. Applicators must follow state regulations and label precautions and must comply with the School IPM Policy and pest management site plans.

Dear Parent, Guardian or Staff Member:

I am writing about three subjects that can affect children's health in school: Pests, pesticides and your right to know.

#### **Pest Control**

Because pesticides pose risks, the school uses an alternative approach to merely applying pesticides. Control of insects, rodents and weeds at our school focuses on making the school buildings and grounds an unfavorable place for pests to live and breed. Through maintenance and cleaning, we will reduce or eliminate available food and water sources and hiding places for the pests. We will also routinely monitor the school area to detect pest problems and prevent the sanitation, pest exclusion, proper food storage, pest removal and as a last resort-pesticides. This holistic approach is often called Integrated Pest Management (IPM)

#### **Pesticide Use**

Sometimes pesticide use may be necessary to control a pest problem. When that happens, the school will use the lowest risk products available. If higher risk pesticides must be used, notices will be posted at application sites and parents, guardians and staff have a right to know.

#### **Your Right to Know**

Parents, legal guardians and school staff will be notified of specific pesticide applications made at the school. To receive notification, you must be placed on the notification registry. Notification will be given at least five days before planned pesticide applications. Pesticide application notices will also be posted in school and on school grounds. Notification need not be given for pesticide applications recognized by law to pose little or no risk of exposure to children or staff.

The School also keeps records of prior pesticide applications and information about the pesticides used. You may review these records, a copy of the School's Integrated Pest Management Policy and the Pesticides in Schools regulation (CMR 01-026 Chapter 27) by contacting Kenny Robbins, IPM Coordinator, at the Office of the Superintendent of Schools (562-7254).

If you have any questions regarding this policy, please contact Kenny Robbins. For further information about pests, pesticides and your right to know, call the Board of Pesticides Control at 207-287-2731 or visit the Maine School IPM web site at [www.thinkfirstsoraylast.org/schoolipm](http://www.thinkfirstsoraylast.org/schoolipm).

Sincerely,

Dr. Craig King, Superintendent of Schools

## **STUDENT CONDUCT ON SCHOOL BUSES**

RSU #10 Policy EEABB

The law does not relieve parents of students from the responsibility of supervision before the child boards the bus in the morning and after the child leaves the bus at the end of the school day.

Once a child boards the bus—and only at that time—does he/she become the responsibility of the school system. Such responsibility shall end when the child is delivered to the regular bus stop at the close of the school day.

In view of the fact that a bus is an extension of the classroom, the Board requires children to conduct themselves in the bus in a manner consistent with established standards for classroom behavior.

In cases when a child does not conduct him/herself properly on a bus, such instances are to be brought to the attention of the building Principal by the bus driver. The building Principal will inform the parents immediately of the misconduct and request their cooperation in checking the child's behavior.

Children who become a serious disciplinary problem on the school bus may have their riding privileges suspended by the Principal. In such cases, the parents of the children involved become responsible for seeing that their children get to and from school safely.

## **CHILD FIND**

RSU #10 Policy IHBAC

RSU #10 seeks to ensure that all children within its jurisdiction are identified, located and evaluated who are school age, 5 through the school year in which they turn 20, and who are in need of special education and supportive assistance—including homeless children, state wards, state agency clients, students who have been suspended or expelled, children attending private schools receiving home instruction, children incarcerated in county jails, children who have the equivalent of 10 full days of unexcused absences or 7 consecutive school days of unexcused absences during a school year, highly mobile children (including migrant or homeless), and children who are suspected of being disabled and in need of special education and supportive assistance even though they are advancing from grade to grade.

RSU #10 is responsible for Child Find for resident students attending private or public schools through public tuition payments or public contract and will meet this duty either through appropriate arrangements with the receiving unit or school or through direct Child Find services by unit personnel or contracted personnel.

The School unit's Child Find responsibility will be accomplished through a unit-wide process which, while not a definitive or final judgment of a student's capabilities or disability, is a possible indicator or special education needs. Final identification of students with disabilities and programming for such students occurs only after an appropriate evaluation and a determination by the Individualized Education Plan (IEP) Team.

This Child Find process will include obtaining data on each child through multiple measures, direct assessment, and parent information regarding the child's academic and functional performance, gross and fine motor skills, receptive and expressive language skills, vision, hearing and cognitive skills. RSU #10 may schedule Child Find activities during its annual kindergarten enrollment to assist in planning for necessary special education and related service at the start of the school year. If screening occurs in the spring prior to school entry, RSU #10 will refer the child to the regional Child Development Services site within 10 school days.

If the Child Find process indicates that a student may require special education and supportive services in order to benefit from regular education, the student shall be referred to the IEP Team to determine the student's eligibility for special education services.

School staff, parents, or agency representatives or other individuals with knowledge of the child may refer children to the IEP team if they believe that the student, because of a disability, may be in need of special education and supportive services in order to benefit from regular education. Such a referral should follow the school unit's pre-referral and referral policy.

## INSTRUCTIONAL AND LIBRARY-MEDIA MATERIALS SELECTION

RSU #10 Policy IJJ

The Board is legally responsible for all matters relating to the operation of the schools, including the provision of instructional materials and maintenance of library-media resources that support the school system's curriculum.

While the Board retains its authority to approve the selection of instructional materials, it recognizes the educational expertise of its professional staff and the need for such staff to be involved in the recommendation of instructional materials. The Board delegates' responsibility for the selection of instructional materials and library-media resources to the professionally trained personnel employed by the school system, subject to the criteria and procedures for selection and the Board's policy on challenged materials as described below.

With the assistance of professional staff, the Superintendent shall establish a system for the selection of instructional materials, including procedures to establish an orderly process for the review and recommendation of instructional materials. The Superintendent will be responsible for overseeing the purchase of instructional materials within budgetary parameters set by the Board. The Board expects the Superintendent to report on progress made in aligning instructional materials with curriculum development and evaluation in support of the content standards contained in Maine's System of Learning Results.

Each school shall maintain a library-media program that includes books and other print materials, multimedia materials, online Internet resources and information technology that support the curriculum. A certified library-media specialist will be responsible for overseeing the library-media program, under the supervision of the Superintendent. As with instructional materials, the Board delegates' responsibility for selection of library-media materials and technology and Internet resources to the school system's professionally trained staff, subject to the criteria and procedures for selection and the Board's policy on challenged materials described below.

### Definitions

**“Instructional materials”** include textbooks and other print materials, online textbooks and instructional materials, other online/Internet resources (including access), software, and supplies and other materials to support instruction in subject areas and the implementation of standards for student learning.

**“Library-media resources”** include books, print materials, online/Internet resources (including access), multimedia materials and information technology that, as part of the library-media program, support the school system's curriculum.

### Objectives of Selection

The Board recognizes that it is the primary objective of instructional materials to implement and support the curriculum, and of library-media resources to extend and enrich the educational programs of the schools. Quality instructional materials and library-media resources are essential to student learning. In preparing students to meet the content standards of the Maine's System of Learning Results, in supporting the achievement of the school unit's educational goals and objectives, and in providing enrichment opportunities that expand students' interests and contribute to a desire for lifelong learning, it is the responsibility of the instructional program and the library-media centers of the schools to provide a wide range of materials on all levels of difficulty, with diversity of appeal and the presentation of different points of view.

### Criteria for Selection

Instructional and library-media materials selected should:

- A. Support achievement of the content standards of the Maine's System of Learning Results;
- B. Support the goals and objectives of the school system's educational programs;
- C. Enrich and support the curriculum;
- D. Take into consideration the varied interests, abilities, and maturity levels of the students served;
- E. Foster respect and appreciation for cultural diversity and varied opinions;
- F. Give comprehensive, accurate and balanced representation to minorities and women in history, science, leadership and the arts and acknowledge the contributions of ethnic, religious and cultural groups to our American heritage;
- G. Present a balance of opposing sides of controversial issues to enable students to develop a capability for critical analysis;
- H. Stimulate growth in factual knowledge, literary appreciation, aesthetic values and ethical standards;
- I. Provide a background of information that will enable students to make intelligent decisions in their daily lives; and
- J. Respect the constraints of the school unit's budget.

Other factors that should be considered are accuracy and currency of material; importance of the subject matter; scholarship; quality of writing and production; and reputation and significance of the author, artist or composer.

In evaluating software, multimedia materials and online/Internet resources, additional factors that should be considered include purpose for use; content; format (degree of interactivity or student involvement); appropriate use of graphics, sound and animation; feedback provided; and ease of use.

## **Procedures for Selection**

Meeting the needs of the individual schools, based on knowledge of the curriculum and the existing collections of instructional and library-media materials, shall be the highest priority. Basic learning materials, i.e., those that are the predominant instructional materials used by most members of the class, are used for a significant portion of the course or receive major emphasis during a course, or are essential to student achievement of content standards of the Maine's System of Learning Results are to take priority in the selection process.

Before recommending materials for purchase, professional staff should evaluate the existing collection, consulting reputable, unbiased, professionally prepared selection aids and specialists from all departments and/or all grade levels.

Social studies and science textbooks should not be older than five years unless up-to-date supplemental instructional materials are also available.

Whenever possible, purchase of non-print materials and multimedia, Internet and technology resources shall be made only after personal evaluation by the librarian/media specialist and/or other appropriate professional staff. Reviewing aids may be used in lieu of personal evaluation.

Multiple copies of outstanding and much-in-demand materials should be purchased as needed. Worn or missing standard items should be replaced periodically. Out-of-date or no-longer-useful materials should be withdrawn from the collection/circulation.

## **Donated Materials**

Gift materials are to be evaluated by the same criteria as purchased materials. And are to be accepted or rejected by those criteria and in accordance with Board policy on gifts and donations.

## **Parental Authority**

A student's parent/guardian may inspect, upon request, any instructional material used as part of the curriculum. The Superintendent will be responsible for developing and implementing procedures for providing access to instructional material within a reasonable time after such a request is made.

The Board recognizes that the final authority as to what materials an individual student will be exposed rests with that student's parents or guardians. However, at no time will the wishes of one child's parents to restrict his/her reading or viewing of a particular item infringe on other parents' rights to permit their children to read or view the same material.

Library-media center materials will not be removed from the collection because of criticism except in accordance with Board policy.

## **Challenged Materials**

Despite the care taken to select materials for student and teacher use and the qualifications of the persons who select the materials, the Board recognized that objections may be raised occasionally by students, parents, school staff or community members.

In the event a complaint is made, the following procedures will apply:

- A. The complaint shall be heard first by the person providing the materials in question.
- B. If the complaint is not resolved, the complainant shall be referred to the building Principal and requested to fill out the "Instructional and Library-Media Materials Challenge Form." A copy of the form will be forwarded to the Superintendent.
- C. The Superintendent shall appoint a committee composed of the following persons to review the complaint: one Principal at the appropriate grade level; one librarian/media specialist; one classroom teacher; the department head in the subject area of the challenged materials; one community member.
- D. The review committee shall: read and examine the materials referred to them; check general acceptance of materials by reading reviews; weigh values and faults against each other and form opinions based on the material as a whole and not on passages or portions pulled out of context; meet to discuss the material and to prepare a written report on it.
- E. The report of the committee shall be forwarded to the Superintendent who will inform the complainant of the results.
- F. No materials shall be removed from use until the review committee has made a final decision.
- G. The review committee's decision may be appealed to the Board. The Board may set aside a portion of a regular meeting or call a special meeting for the purpose of receiving testimony from representatives of the various points of view. The material in question shall be:
  1. Reviewed objectively and in its full content;
  2. Evaluated in terms of the needs and interest of students, school, curriculum and community;
  3. Considered in the light of differing opinions; and
  4. Reviewed in light of the criteria for initial selection and purpose as provided herein.

The Board will announce its decision in writing not later than the conclusion of the next regular meeting of the Board following its receipt of said testimony.

## **STUDENT COMPUTER AND INTERNET USE**

RSU #10 Policy IJNDB

STUDENT USE OF SCHOOL-ISSUED COMPUTER, DEVICES AND THE INTERNET RSU 10 computer/device, network, and Internet access are provided to support the educational mission of the schools and to enhance the curriculum and learning

opportunities for students and school staff. This policy and the accompanying rules also apply to other school devices issued directly to students (such as laptops and iPads), whether in use at school or off school premises. Students are not allowed to use privately-owned computers/devices at school. Compliance with RSU 10's policies and rules concerning computer/device and Internet use is mandatory. Students who violate these policies and rules may, after being given an opportunity to respond to an alleged violation, have their privileges limited, suspended or revoked. The building administrator shall have the final authority to decide whether a student's privileges will be altered, based on the circumstances of the particular case. Violations of this policy and RSU 10's computer/device and Internet rules may also result in disciplinary action, referral to law enforcement, and/or legal action. RSU 10 computers/devices remain under the control, custody, and supervision of the school unit at all times. The school unit monitors all computers/devices and Internet activity by students. Students have no expectation of privacy in their use of school computers/devices, whether they are used on school property or elsewhere. RSU #10 utilizes filtering technology designed to block materials that are obscene or harmful to minors, and child pornography. RSU 10 takes precautions to supervise student use of the Internet and electronic communications, and to prevent the unlawful disclosure, use or dissemination of personally identifiable information about students. RSU 10 educates students about safety on the Internet, appropriate online behavior and cyberbullying awareness and response, but parents should be aware that RSU 10 cannot reasonably prevent all instances of inappropriate computer/device use by students that may violate Board policies and rules, including access to objectionable materials and communications. The Superintendent or his/her designee is responsible for implementing this policy and the accompanying rules. Additional administrative procedures or school rules governing the day-to-day management and operations of the school unit's computers/devices and network may be implemented by the Superintendent, consistent with Board policies and rules. Students and parents/guardians shall be informed of this policy and the accompanying rules through student handbooks, the school website, and/or other means selected by the Superintendent.

Students should inform their teacher if they access information or messages that are dangerous, inappropriate, or make them uncomfortable in any way.

**G. System Security** - The security of the school unit’s computers, networks, and Internet services is a high priority. Any student who identifies a security problem must notify his/her teacher immediately. The student shall not demonstrate the problem to others or access unauthorized material. Any user who attempts to breach system security, causes a breach of system security, or fails to report a system security problem shall be subject to disciplinary and/or legal action in addition to having his/her computer privileges limited, suspended, or revoked.

### H. Additional Rules for Laptops and iPads Issued to Students

1. The student and his/her parents are responsible for compensating the school unit for any losses, costs, or damages incurred by the school unit for violations of board policies and rules while the student is using school unit computers/devices including the cost of investigating such violations. 2. Parent(s)/guardian(s) and student(s) are required to attend a pre-use informational meeting designed by the Building Administrator before a device will be issued to their child. The meeting will orient parents on the expectations for care of school-issued devices, Internet safety, and the school unit's rules in regard to use of this technology. Before a device is issued annually to a student, the student and the parent/guardian must sign the school's "student device acceptable use" form.
3. Students and their parents are responsible for the proper care of devices at all times, whether on or off school property, including costs associated with repairing or replacing the device. RSU 10 offers a device protection plan for parents to cover replacement costs and/or repair costs for damages not covered by the device warranty. Parents who choose not to enroll in the device protection plan should be aware that they are responsible for any costs associated with loss, theft, or damage to a device issued to their child.
4. Loss, theft, or damage or accessories of a device must be reported immediately to principal/vice principal, and, if stolen, to the local law enforcement authority as well.

## **RETENTION AND PROMOTION**

RSU #10 Policy IKE

The RSU 10 offers a planned integrated sequence of instruction that meets State requirements. Our schools are transitioning to a proficiency-based approach to education, which means that learners will progress through the learning system at their own pace consistent with the attainment of learning targets; as opposed to the traditional approach of advancing learners largely on the basis of age and grade. Thus, some students will advance through the learning system in a shorter or longer time than others depending on their attainment of learning targets. Appropriate instructional supports and strategies are provided to assist learners in achieving learning targets and proficiency, which take into account individual learners, interests and abilities.

School administrators, teachers and guidance counselors use multiple assessment methods to measure learners performance and progress towards learning targets, and to make decisions about progress through the learning system. School staff may also consider other factors in making decisions concerning learner progress.

### **A. Factors**

1. Participation and success in remedial programs, tutoring, summer school, and/or other opportunities for success;
2. Potential benefit from repetition of a grade or learning experiences;
3. Potential for success if accelerated;
4. Attendance;
5. Social and emotional maturity;
6. Health;
7. Age in relation to grade placement;
8. Program options;
9. Student attitude; and
10. Parental concerns

### **B. Retention**

As schools move towards a standards-based, proficiency-based model of matriculation, chronological grade level will begin to play a lesser role. However, students do need to be assigned to a cohort or grade level for many academic and logistical reasons. If a student is not progressing adequately academically or socially, grade retention may be considered. Consideration of grade retention must include a wide variety of data including classroom grades, standardized test grades, and the opinions of teachers, guidance personnel, school psychologists, and parents. If a student is retained a grade level, a well-defined plan must be developed by school personnel to ensure there the student will be much more likely to achieve the learning objectives and standards.

The principal shall be responsible for making the decision regarding retention. A parent may appeal to the Superintendent. The Superintendent's decision shall be final

### **C. Acceleration**

Decisions regarding acceleration shall be made by the principal in consultation with the student's teacher(s), the Gifted and Talented Education Coordinator, and other professional staff or consultants, as appropriate. A parent who is dissatisfied with the principal's decision may appeal to the Superintendent. The Superintendent's decision shall be final.

### **D. Transfer Students**

For students who transfer into the school system from another state or educational program the principal will determine the value of the student's prior educational experience for the purpose of grade placement or the fulfillment of credits, standard and proficiencies.

The Building Administrator of each school within the School Unit will create a Promotion Team. The Promotion Team will be comprised of the student's parent(s)/guardian(s), teachers, principal, a guidance counselor and other school personnel as is appropriate. The Promotion Team will be charged with discussing whether or not students will be retained.

## **EDUCATIONAL RESEARCH: STUDENT SUBMISSION TO SURVEYS, ANALYSES, OR EVALUATIONS**

RSU #10 Policy ILD

In this policy, "surveys, analyses, or evaluations" refer to methods of gathering data for research purposes.

No student shall be required as part of any program wholly or partially funded by the U.S. Department of Education to submit to any survey, analyses, or evaluation that reveals information concerning:

- A. Political affiliations or beliefs of the student or the student's parent;
- B. Mental or psychological problems of the student or the student's family;
- C. Sex behavior or attitudes;
- D. Illegal, anti-social, self-incriminating, or demeaning behavior;
- E. Critical appraisals of other individuals with whom respondents have close family relationships;
- F. Legally recognized privileged or analogous relationships, such as those of lawyers, physicians, and ministers;
- G. Religious practices, affiliations, or beliefs of the student or student's parents; or
- H. Income (other than that required by law to determine eligibility for participation in a program or for receiving financial assistance under such program without the prior written consent of the student's parent/guardian, or of the student, if he/she is 18 years of age or older.

All instructional materials, including teachers' manuals, films, tapes, or other supplementary material which will be used in connection with any such survey, analysis, or evaluation shall be available upon request for inspection by the student's parent/guardian. For the purpose of this policy, "instructional material" does not include academic tests or assessments.

A parent may inspect, upon request, a survey created by a third party before the survey is administered or distributed to a student.

The Superintendent/designee will be responsible for implementing any procedures necessary to protect the privacy of participating students and to provide parents with access to surveys within a reasonable time before administration or distribution.

The school unit will notify parents of this policy at least annually at the beginning of the school year and within a reasonable time of any substantive change in policy. Insofar as practicable,\* the school unit will also directly notify parents annually at the beginning of the school year when surveys, analyses, or evaluations are scheduled or anticipated. Parents shall have the

opportunity to opt their child out of participation in any survey, analysis, or evaluation. Students who are 18 years of age or older may opt out of such surveys, analyses, or evaluations.

**[NOTE: “Insofar as practicable” acknowledges that there may be circumstances in which a research request is made or is approved only after the school year has begun. When this occurs, the school unit should notify parents far enough in advance for them to access surveys and related instructional materials and to opt their children out, if desired.]**

## **COMPULSORY ATTENDANCE**

RSU #10 Policy JEA

Under state law, full-time school attendance is required of all children from his/her 7<sup>th</sup> to 17<sup>th</sup> birthday except:

- A. A person who graduates from high school before his/her 17th birthday;

  - 1. Reached the age of 15 years or completed the 9th grade;
  - 2. Permission to leave school from that person’s parent;
  - 3. Been approved by the principal for a suitable program of work and study or training;
  - 4. Permission to leave school from the Board or its designee; and
  - 5. Agreed in writing with that person’s parent and the Board or its designee to meet annually until that person’s 17th birthday to review that person’s educational needs. When the request to be excused from school has been denied pursuant to this paragraph, the student’s parent may appeal to the Commissioner; or

  - 1. A person shall be excused from attending a public day school if the person obtains equivalent instruction in:
    - a. A private school approved for attendance purposes pursuant to 20-A MRSA § 2901;
    - b. A private school recognized by the department as providing equivalent instruction;
    - c. A home instruction program that complies with the requirements of 20-A MRSA § 5001-A (3) (A) (4);or
  - d. Any other manner arranged for by the Board and approved by the Commissioner.
- B. A person may be excused from attendance at a public day school pursuant to 20-A MRSA § 5104-A (other public or private alternative programs) or § 8605 (student attendance in adult education courses).

### **Credit for Attendance at a Private School**

A student shall be credited with attendance at a private school only if a certificate showing the name, residence and attendance of the person at the school, signed by the person or persons in charge of the school, has been filed with the school officials of the administrative unit in which the student resides.

### **Discontinuation of Home Instruction**

If the home instruction program is discontinued, students of compulsory school age must be enrolled in a public school or an equivalent instruction alternative as provided for by the law. The receiving school shall determine the placement of the student. At the secondary level, the principal of the receiving school shall determine the value of the prior educational experience toward meeting the standards of Maine’s system of a Learning Results.

### **Excusable Absence**

A person’s absence is excused when the absence is for the following reasons:

- A. Personal illness;
- B. An appointment with a health professional that must be made during the regular school day;
- C. Observance of a recognized religious holiday when the observance is required during the regular school day;
- D. A family emergency;
- E. A planned absence for a personal or educational purpose that has been approved;
- F. Education disruption resulting from homelessness, unplanned psychiatric hospitalization, unplanned hospitalization for a medical emergency, foster care placement, youth development placement or some other out-of-district placement that is not otherwise authorized by either any individual education plan or a superintendents' student transfer agreement. "Education disruption" does not apply to a student who is out of school for reason such as a family event or medical absence for planned hospitalization or recovery.

Parents are responsible for the school attendance of students who are under 17 years of age. The Board shall work with families in an effort to ensure compliance. Secondary school students 20 years of age or more will only be admitted to the school unit with prior Board approval.

## **STUDENT ATTENDANCE/STUDENT ABSENCES AND TARDINESS**      RSU #10 Policy JEAA

Regular school attendance is essential to academic success. Because the process of education depends upon exposure to subject matter, continuity of instruction and class participation, absence from class is detrimental to student learning. The interaction of students with the teacher and with other students contributes to mastery of content, critical thinking, and development of effective communication and social skills.

Responsibility for maintaining student attendance is a shared responsibility.

- A. Except for excused absences, students are expected to attend school every day, arrive at school and to each class on time, and remain in school for the full day.
- B. Parents/guardians are expected to ensure that their children arrive at school each day on time, remain in school for the full day, and attend school consistently throughout the year.
- C. Schools will maintain a comprehensive attendance record for each student. School staff are expected to monitor attendance and communicate with parents/guardians and students regarding attendance and tardiness.

The Superintendent, in consultation with school administrators and, as appropriate, other school unit staff, shall be responsible for developing rules and procedures related to student attendance. Such rules and procedures will include provisions for:

- A. Consequences for unexcused absences, tardiness, early departures and absences from classes;
- B. The potential academic consequences of excessive absenteeism; and
- C. The making up of tests, quizzes and other work missed during excused and unexcused absences.

The Board's policy and the schools' attendance rules and procedures will be communicated to students, parents/guardians, administrators, and staff by means of student and staff handbooks, student and parent orientations, and/or other means as deemed effective and appropriate. The potential disciplinary consequences for unexcused absences from school or class and for unexcused tardiness and early departures will be included in the student handbook.

## Student Dress

RSU #10 Policy – JICA

RSU #10 recognizes that students' mode of dress and grooming is a manifestation of their personal style and individual preference. Our decisions regarding dress are based on the need to foster a climate conducive to a caring learning environment that nurtures personal growth and promotes safety, security and positive attitudes. Paramount to this effort is the expectation that students dress appropriately for the school setting. Apparel that draws undue attention to the wearer can detract from the education process and is therefore inappropriate. School is a work/learning environment; as such, acceptable standards of dress for a school setting will naturally differ from those standards associated with social attire. We believe adherence to this policy will contribute toward a positive, safe and healthy learning environment.

Accordingly, RSU #10 Board shall authorize school regulations that prohibit student dress or grooming practices which:

- Present a hazard to the health and safety of the student or to others in the school
- Materially interfere with schoolwork, create disorder, or disrupt the education program
- Prevent students from achieving educational objectives because of blocked vision or restricted movement
- Hoods covering heads are not appropriate
- Pajamas are not appropriate
- See through garments, which are the only garment worn, are not appropriate

Exceptions to the dress code may be made for certain school-approved events or programs.

### General Rules:

- Decorations and/or designs, symbols, mottos, words or acronyms that convey offensive, vulgar, profane, violent, gang-affiliated, sexually explicit, or sexually suggestive messages shall be prohibited on any item or as part of any attire.
- Symbols, mottos, words or acronyms advertising or promoting tobacco, alcohol, or illegal drugs or drug paraphernalia shall also be prohibited.
- Symbols, mottos, words or acronyms that profess violence or hatred toward others shall also be prohibited.

## APPAREL

### Upper Garments

Sleeveless garments must not expose undergarments or an area an undergarment would cover.

- Strapless garments (arm pit to arm pit) are prohibited.
- Two shoulder straps (2 fingers width) shall be required on all upper garments with no one shoulder or halter-tops permitted.
- Bare midriffs; low cut necklines that reveal cleavage or bare backs are prohibited. Garments must be of appropriate length to cover the midriff as well as cut and/or fit to meet these requirements while sitting and/or bending.
- Off the shoulder shirts with sleeves are permitted as long as the above criteria are met. (Ex. Tank top worn under shirt)

### Lower Garments

- Skirts or shorts must reach mid-thigh.
- Appropriate shorts may be worn for physical education activities and athletic practices.
- Exposed undergarments are not appropriate.
- Spandex shorts or yoga pants are not appropriate.

### Footwear

- To comply with health and safety standards, no student is allowed to attend school or school functions barefooted. All students must wear footwear appropriate for their programs.

### Accessories

- Spiked clothing, including, but not limited to, dog collars, wristbands, chains, or belts containing metal studs that pose a safety concern for the students or others are prohibited.

- The wearing of hats and caps shall be prohibited at the middle and elementary schools and shall be determined by the individual teachers within their classrooms as determined by each high school.
- Can wear if prescribed by a physician, previously approved by the school's administration for religious reasons, or approved by the school's administration for a special school activity.

## **ENFORCEMENT**

All students are expected to adhere to RSU #10 dress policy. All administrators, faculty and staff will do monitoring. Consequences for students who do not comply with the dress policy shall be administered as determined by the principal/director, assistant principal/assistant director or designee using standard disciplinary guidelines as outlined in each school's parent/student handbook.

## **DRUG AND ALCOHOL USE BY STUDENTS**

RSU #10 Policy JICH

RSU No. 10 supports providing a safe, healthy, productive learning environment for students that is free from of the detrimental effects of alcohol, tobacco, and illegal substances. Accomplishing this goal requires a cooperative effort among school staff, students, parents, law enforcement, and organizations concerned with the healthy development of all students entrusted into our care use of drugs, alcohol, and tobacco by school-aged youth.

In order to promote the safety, health and well being of students, the Board endorses a three-pronged approach to address the issue of drug and alcohol use: prevention/ education, intervention, and discipline. The Superintendent/designee is responsible for developing appropriate administrative procedures, curricula and cooperative programs to implement this policy.

### **Prohibited Conduct**

No student shall distribute, dispense, possess, use, or furnish cigarettes, chewing tobacco, snuff, or any other tobacco products, alcoholic beverage, malt beverage, fortified wine or other intoxicating liquor. Nor shall a student manufacture, distribute, dispense, possess, use or be under the influence of any narcotic drug, hallucinogenic drug, amphetamine, barbiturate, marijuana, anabolic steroid, imitation drug or substance purported to be a drug, and any other controlled substance defined in federal and state laws/regulations.

These prohibitions apply to any student who is on school property, who is in attendance at school or at any school-sponsored activity, or whose conduct at any time or place directly interferes with the operations, discipline or general welfare of the school. It is not a violation of this policy for a student to be in possession of a legally defined drug properly administered and specifically prescribed by his/her physician

### **Prevention/Education**

RSU No. 10 will provide students with appropriate information and programs focused on educating students about tobacco, drugs and alcohol and preventing their use. Programs shall teach students that the use and/or misuse of tobacco, drugs and alcohol is wrong and harmful: how to resist peer pressure; and address the legal, social and health consequences of drug and alcohol use and possession.

### **Intervention**

RSU No. 10 will use a team approach to intervene and assist students with tobacco, drug/alcohol problems. ## **DRUG AND ALCOHOL USE BY STUDENTS PROCEDURE**

RSU #10 Policy JICH-R

Since the use of alcohol and other substances by even one student may endanger the safety and well-being of all other students and faculty and since the use of substances, including alcohol can create an impediment to learning; RSU #10 has a responsibility to provide channels for help and assistance to students whose health may be in jeopardy. It must also provide an atmosphere which will promote a quality learning environment which cannot be undermined by the use of alcohol and/or other substances.

The school system encourages education and awareness training for administrators, athletic directors, coaches, student advisors, participants, and parents. This training should cover adolescent chemical problems, current substance abuse trends, including the symptomatology of chemical dependency and special problems affecting extra-curricular activities.

## **ADMINISTERING MEDICATION TO STUDENTS**

RSU #10 Policy JLCD

Although the Board discourages the administration of medication to students during the school day when other options exist, it recognizes that in some instances a student's chronic or short term illness, injury, or disabling condition may require the administration of medication during the school day. The school will not deny educational opportunities to students requiring the administration of medication in order to remain in attendance and participate in the educational program.

The intent of this policy is to promote the safe administration of medications to students by school personnel and to provide for authorization of student emergency self administration of medication from asthma inhalers and epinephrine pens. The Board encourages collaboration between parents/guardians and the schools in these efforts. The Board disclaims any and all responsibility for the diagnosis, prescription of treatment, and administration of medication for any student, and for any injury arising from a student's self administration of medication.

#### **Definitions**

“Administration” means the provision of prescribed medication to a student according to the orders of a health care provider.

“Health care provider” means a medical/health practitioner who has a current license in the State of Maine with a scope of practice that includes prescribing medication.

“Indirect supervision” means the supervision of an unlicensed school staff member when the school nurse or other health care provider is not physically available on site but immediately available by telephone.

“Medication” means prescribed drugs and medical devices that are controlled by the U.S. Food and Drug Administration and are ordered by a health care provider. It includes over the counter medications prescribed through a standing order by the school physician or prescribed by the student’s health care provider.

“Parent” means a natural or adoptive parent, a guardian, or a person acting as a parent of a child with legal responsibility for the child’s welfare.

“School nurse” means a registered professional nurse with Maine Department of Education certification for school nursing

“Self Administration” is when the student administers medication independently to himself/herself under indirect supervision of the school nurse.

### **Administration of Medication by School Personnel**

#### Over the Counter Medications

At the beginning of the school year, the school nurse may request a parent’s written permission to administer over the counter medication to their student. This permission may be granted for the current school year or on an as needed basis. The yearly permission should specify the exact over the counter medications that may be administered. However, the school nurse is permitted to administer over the counter medications as per the school physician’s standing order.

#### Parental Request

In the event that no reasonable alternative exists, the parent may request medication be administered to the student during the school day. The school nurse may take a verbal request from the parent, however, for continued administration, a signed permission to administer form must be provided as soon as possible. The written request must include an acknowledgement and agreement that unlicensed personnel may administer the medication as per the health care provider’s instructions. In addition, the request shall indicate that information regarding the student’s medication may be shared with appropriate school personnel. Parents may provide the reason (diagnosis) requiring the administration of medication.

Requests shall be valid for the current school year only.

#### Health Care Provider’s Order

All parental requests for prescription medication must be accompanied by a written order from the student’s health care provider substantiating the fact that the administration of a particular medication during the school day is necessary for the student’s health and attendance in school. A medication label that provides sufficient information may be used in lieu of a written order unless the medication is to be administered for more than 15 consecutive days. Such order must include:

1. Student’s Name
2. The name of the medication;
3. The dose;
4. The route of administration (e.g., tablets, liquid, drops); and
5. Time intervals for administration (e.g., every four hours, before meals);
6. Any special instructions; and
7. The name of the prescribing health care provider

It is the responsibility of the school nurse to clarify any medication order that he/she believes to be inappropriate or ambiguous. In accordance with Department of Education Rule Chapter 40 § 2(B), the school nurse may decline to administer a medication if he/she believes such administration would jeopardize student safety. In this case, the school nurse must notify the parent, the student’s health care provider and the school administrator (i.e., building principal or designated administrator)

#### Renewal of Parent Permission Requests/Forms and Health Care Provider Orders

Written parental permission requests/forms and health care provider orders must be renewed at least annually. Health care provider orders must be renewed whenever there are changes in the order.

### Delivery and Storage of Medication

The student's parent shall deliver any medication to be administered by school personnel to the school in its original container. In the event that this is not practical, the parent must contact the school to make alternate arrangements. The parent is responsible for notifying the school of any changes in or discontinuation of a prescribed medication that is being administered to the student at school. The parent must remove any medication no longer required or that remains at the end of the school year. Medications not retrieved by parent will be destroyed at the end of the school year by the school nurse.

All prescription medication will be kept in a secured, locked cabinet in the nurse's office or main office. The cabinet is to be kept locked at all times except during the administration of the medication.

Emergency medication shall be stored in an area readily accessible to the individual designated to administer them.

### Recordkeeping

School personnel and the student's parent shall account for all medication brought to school. The number of capsules, pills or tablets, and/or the volume of other medications brought to school shall be recorded on the medication administration record.

School staff administering medication shall document each instance the medication is administered including the date, time, dosage given, and signature.

The school nurse shall maintain a record including the parent's request, physician's order, details of the specific medications (including dosage and timing of medication), and documentation of each instance the medication is administered.

All controlled substance medications will be counted and recorded upon receipt from the parent. Medication shall be recounted after every administration and this count reconciled with the medication administration record.

Any adverse reaction to medication shall be reported to the student's parent immediately and entered into the student's health record.

Any error made in the administration of medications shall be reported to the building administrator immediately, and a written report completed and entered into the student's health record. The nurse is responsible for reporting the error to the student's parent.

Records shall be retained according to the current State schedules pertaining to student health records

### Reporting

RSU #10 will report to the Department of Education (on a form developed by the Department) of each incident involving a severe allergic reaction or the administration of an epinephrine autoinjector.

### Confidentiality

To the extent legally permissible, staff members may be provided with such information regarding medication and its administration as may be in the best interest of the student.

### Administration of Medication

Medication may be administered during the school day by licensed medical personnel acting within the scope of their licenses.

The school nurse, under the administrative supervision of the Superintendent, will provide direction and oversight for the administration of medication to students.

All unlicensed personnel (principals, teachers, education technicians, school secretaries, coaches, bus drivers, etc.) who administer medication must receive training before being authorized to do so.

Training that shall be acceptable for the purpose of authorization of unlicensed personnel is addressed under the section of this policy titled “Required Training of Unlicensed Personnel to Administer Medication.”

#### Administration of Medication During Off Campus Field Trips and School Sponsored Events

The school will accommodate students requiring administration of medication during field trips or school sponsored events as follows: The school nurse, principal, and, as appropriate, the school unit’s Section 504 Coordinator and/or IEP team, will collaborate with the student’s parent and primary care provider to determine whether an individual student’s participation is contraindicated due to the unstable/fragile nature of his/her health condition. The decision will be made in compliance with applicable laws, including the IDEA, § 504 and the Americans with Disabilities Act (ADA).

The parent must provide the appropriate number of doses needed for the duration of the field trip or school sponsored event.

When there are no contraindications to student participation, an appropriately trained staff member will be assigned to administer medication. The parent will be encouraged to accompany the student, if possible, to care for the student and administer medication.

All provisions of this policy shall apply to medications to be administered during off campus field trips and school sponsored events. As practicable, the DOE’s “Policy for Medication Administration on School Trips” will be followed.

#### Medication Administration On School Field Trips

RSU #10 schools will accommodate students requiring administration of medication during field trips or school sponsored events.

1. There must be written permission to administer form completed by the parent and a written physician's order and/or an appropriately labeled original medication container.
2. Either a standardized preprinted medication label or preprinted envelope will be used for student attending a field trip. The medication envelope or label will contain the following information transferred by the school nurse.
  - a. Name of student
  - b. Name of medication
  - c. Dose to be given
  - d. Time to be given
  - e. Physician prescribing the medication
3. The medication will be transported, stored and administered by designated, trained staff members in compliance with any special direction for the medication and will be secured as safely as possible with the exception of Benadryl, inhaled asthma medication, epinephrine autoinjector, insulin and/or insulin pump and glucagon.
4. The administration of medication on a field trip will duplicate as much as possible, the guidelines found in the “Guidelines for Training of Non-Licensed Personnel in Medication Administration”. This will include consideration of student privacy and cleanliness of area where medications are administered.
5. Each school nurse will develop a method of documenting medications administered on the field trip, recording any unexpected occurrences, and a method of returning any medication not administered.

#### Student Self Administration of Asthma Inhalers and Epinephrine Pens

Students with allergies or asthma may be authorized by the building principal, in consultation with the school nurse, to possess and self administer emergency medication from an epinephrine pen (EpiPen) or asthma inhaler during the school day, during field trips, school sponsored events, or while on a school bus. The student shall be authorized to possess and self administer medication from an epinephrine pen or asthma inhaler if the following conditions have been met.

1. The parent (or student, if 18 years of age or older) must request in writing authorization for the student to self administer medication from an epinephrine pen or asthma inhaler.
2. The student must have the prior written approval of his/her primary health care provider and, if the student is under the age of 18, the prior written approval of his/her parent. The written notice from the student’s primary care provider must specify the name and dosage of the medication,

3. frequency with which it may be administered, and the circumstances that may warrant its use.
4. The student's parent must submit written verification to the school from the student's primary care provider confirming that the student has the knowledge and the skills to safely possess and use an epinephrine pen or asthma inhaler.
5. The school nurse shall evaluate the student's technique to ensure proper and effective use of an epinephrine pen or asthma inhaler
6. The parent will be informed that the school cannot accurately monitor the frequency and appropriateness of use when the student self administers medication, and that the school unit will not be responsible for any injury arising from the student's self medication.

A student's authorization to possess and self administer medication from an epinephrine pen or asthma inhaler may be limited or revoked by the building principal after consultation with the school nurse and the student's parents if the student demonstrates inability to responsibly possess and self administer such medication.

To the extent legally permissible, staff members may be provided with such information regarding the student's medication and the student's self administration as may be in the best interest of the student.

Sharing, borrowing, or distribution of medication is prohibited. The student's authorization to self administer medication may be revoked and the student may be subject to disciplinary consequences for violation of this policy.

Required Training of Unlicensed Personnel to Administer Medication

Unlicensed school personnel who administer medication to students in a school setting (at school, on school transportation to or from school, on field trips, or during school sponsored events) must be trained in the administration of medication before being authorized to carry out this responsibility. Such training must be provided by a registered professional nurse or physician and include the components specified in Department of Education Rules Chapter 40 and other applicable Department of Education standards, recommendations, programs, and/or methodologies

The trainer shall document the training and competency of unlicensed school personnel to administer medication. Based upon a review of the documentation of training and competency in the administration of medication, the school nurse will make recommendations to the Superintendent/designee pertaining to authorization of such unlicensed personnel pertaining to authorization to administer medication.

Following the initial training, a training review and information update must be held at least annually for those unlicensed school personnel authorized to administer medication.

The Superintendent shall ensure that confidentiality training is provided to all school employees who have access to this information.

### **Psychological Evaluation/Risk Assessment**

The Superintendent is authorized **as soon as reasonably possible** to request a psychological evaluation of a student who violates this policy when, in his/her opinion, such an evaluation will assist in assessing the risk the student poses to school safety if the student were to remain in school.

All such evaluations shall be performed at the school unit's expense (except when required as a condition for reentry of a student who has been expelled). If the parents/guardians and/or student refuse to permit a requested psychological evaluation, the Superintendent and the Board may draw any reasonable inferences from the student's behavior concerning the risk the student poses to school safety for purposes of determining appropriate action.

### **Staff/Student Training and Procedures**

The Superintendent is authorized to institute training programs for staff and students designed to prevent bullying and support the goal of providing a safe, orderly and respectful school environment. The Superintendent is also authorized to implement any administrative procedures necessary to carry out this policy.

## I. Introduction

All students have the right to attend public schools that are safe and secure learning environments. It is the intent of the RSU #10 Board to provide all students with an equitable opportunity to learn. To that end, the Board has a significant interest in providing a safe, orderly, and respectful school environment that is conducive to teaching and learning.

Bullying is detrimental to the school environment and student learning, achievement and well-being. It interferes with the mission of the schools to educate their students and disrupts the operations of the schools. Bullying affects not only students who are targets but also those who participate and witness such behavior. These behaviors must be addressed to ensure student safety and an inclusive learning environment.

It is not the Board's intent to prohibit students from expressing their ideas, including ideas that may offend the sensibilities of others, or from engaging in civil debate. However, the Board does not condone and will take action in response to conduct that interferes with students' opportunity to learn, the educational mission of the RSU #10 schools, and the operation of the schools.

## II. Prohibited Behavior

The following behaviors are prohibited:

1. Bullying;
2. Cyberbullying;
3. Harassment and Sexual Harassment (as defined in board policy ACAA);
4. Retaliation against those reporting such defined behaviors; and
5. Knowing and false accusations of bullying behavior.

Any person who engages in any of these prohibited behaviors that constitutes bullying shall be subject to consequences.

## III. Bullying and Cyberbullying Defined

(3) Is based on a student's actual or perceived race, color, national origin, ancestry, religion, physical or mental disability, gender, sexual orientation, or any other distinguishing characteristic, or is based on a student's association with a person with one or more of these actual or perceived characteristics, and that has the effect described in subparagraph (1) or (2) above. (These behaviors might also meet the criteria for harassment as defined in board policy ACAA: Harassment and Sexual Harassment of Students.)

5. Using a camera phone or digital video camera to take and/or send embarrassing or “sexting” photographs of other students.

C. “Retaliation” means an act or gesture against a student for asserting or alleging an act of bullying. “Retaliation” also includes reporting an act of bullying when it is not made in good faith.

#### **IV. Application of Policy**

A. This policy applies to any student, school employee, contractor, visitor or volunteer who engages in conduct that constitutes bullying or retaliation, all of whom have the responsibility to comply with this policy.

B. This policy applies to bullying that:

## **VI. Responding**

The school principal or a superintendent's designee will:

- A. Promptly investigate and respond to allegations of bullying behavior;
- B. Keep written documentation of all allegations of bullying behavior and outcomes of the investigations, and report substantiated incidents to the superintendent;
- C. Apply disciplinary actions, which may include but are not limited to, imposing a series of graduated consequences that include alternative discipline. In determining the appropriate response to students who engage in bullying behavior, school administrators should consider the type of behaviors, the frequency and/or pattern of behaviors, and other relevant circumstances. Alternative discipline includes, but is not limited to:
  - 1. Meeting with the student and the student's parents;
  - 2. Reflective activities, such as requiring the student to write an essay about the student's misbehavior;
  - 3. Mediation, but only when there is mutual conflict between peers, rather than one-way negative behavior, and both parties voluntarily choose this option;
  - 4. Counseling;

- G. Notify parents, guardians and students of the right to appeal a decision of a school principal or a superintendent's designee related to taking or not taking disciplinary action in accordance with this policy. The appeals procedure must be consistent with other appeals procedures established by the school board and may include an appeal to the superintendent.

7. Providing professional development and staff training in the best practices in prevention of bullying and harassment and implementation of this policy;
8. Filing the SAU policies to address bullying and cyberbullying with the Department of Education.

## **QUESTIONING AND SEARCHES OF STUDENTS**

RSU #10 Policy JIH

The Board seeks to maintain a safe and orderly environment in the schools. School administrators may question and/or search students in accordance with this policy and accompanying administrative procedure.

Students, their personal property, and their vehicles may be searched upon reasonable suspicion that they possess any items or substances which are prohibited by law, Board policies and/or school rules, or which interfere with the operations, discipline or general welfare of the school.

When special circumstances exist, including but not limited to a suspected ongoing violation of the Board's drug/alcohol or weapons policies, or when a potential threat to safety is identified, school administrators may search groups of students or the entire student body without individualized suspicion.

Student use of all school storage facilities, including but not limited to lockers, desks, and parking lots, is a privilege granted by the school. All storage facilities are school property and remain under the control, custody, and supervision of the school. Only locks provided by RSU #10 may be used to secure student lockers.

Students have no expectation of privacy in school storage facilities or for any items placed in such storage facilities. School administrators have the authority to inspect and search storage facilities and their contents on a random basis, with or without reasonable suspicion, and without notice or consent. Canine officers may be used.

If a search produces evidence that a student has violated or is violating the law, Board policies and/or school rules, such evidence may be seized and impounded by school administrators and appropriate disciplinary action may be taken. Evidence may be forwarded to law enforcement authorities as required by law or as deemed appropriate by school administrators.

The Superintendent is authorized to develop and implement, with input from legal counsel, administrators, and/or other appropriate persons, any administrative procedure necessary to carry out this policy.

This policy and the accompanying procedure will be included in student/parent handbooks. Such administrative procedures shall be subject to Board approval.

## **ELIGIBILITY FOR PARTICIPATION IN CO/EXTRACURRICULAR ACTIVITIES**

RSU #10 Policy JJI

All students are encouraged to participate in co/extracurricular activities. These activities offer students the opportunity to learn new skills, to compete in a variety of sports, to experience being part of a team, to develop character, positive attitudes and self-discipline, to demonstrate leadership and to realize personal accomplishments. This policy covers all activities that compete with other schools.

Participation in co/extracurricular activities is a privilege that carries with it responsibilities to self, classmates, school and community. Participation is entirely voluntary.

While the Board recognizes the importance of co/extracurricular activities to students, the schools and the community, it is the Board's intent to ensure that participation in co/extracurricular activities does not interfere with student learning and academic progress. It is the Board's intent to establish eligibility standards that support the well being of students and the integrity of the schools' co/extracurricular programs.

#### **High School Academic Eligibility**

- A. In order to participate in co/extracurricular activities, scrimmages, exhibition games, performances, competitions, or tournaments a student must be a full-time student in the R.S.U. #10 school system. For high school students this means the student must be enrolled in a minimum of four full-time classes and passing four. Students not meeting this academic minimum are on probation
- B. All students will be checked for eligibility at each grading report.
- C. A student who is on academic probation may regain eligibility if his/her two week progress report indicates that he/she is meeting the academic minimum. The student will have to do two-week progress reports until the end of the marking period (quarter/trimester).
- D. A student may continue participating in practices while on probation.
- E. A student on probation may travel with the team only if bus departure is after the normal school day. Students will remain with the team/club/organization at all times.
- F. All incoming freshmen will be considered eligible at the beginning of the first marking period of the year.
- G. Eligibility of transfer students will be determined by the Principal and, for interscholastic activities, the Principal and/or Athletic Director.
- H. Summer school will not be allowed to gain eligibility.

#### **Middle School Eligibility**

- A. In order to participate in co/extracurricular activities, scrimmages, exhibition games, performances, competitions, or tournaments students must pass all subjects to be eligible.
- B. A student who is on academic probation may regain eligibility if his/her two-week progress report indicates that he/she is meeting the academic minimum. The student will have to do two week progress reports until the end of the marking period.
- C. A student may continue participating in practices while on probation.
- D. A student on probation may travel with the team only if bus departure is after the normal school day. Students will remain with the team/club/organization at all times.
- E. All middle school students will be considered eligible at the beginning of the first marking period of each year.

#### **Sports Physicals and Insurance**

Because of the relationship between athletics and student health and safety, a sports physical will be required every two years before a student may participate in interscholastic athletic activities. The school nurse will review the completed physical exam form and the athletic director will maintain the updated electronic student physical exam list. Thereafter, a student will be required to submit a completed Parent Approval/Sports Medical update form each year prior to participation. Returned forms will be reviewed by the athletic director, kept on file in the athletic director's office and will be accessible for coaches at sporting events in the event of an emergency.

A student who suffers serious illness or injury must obtain "return to play" clearance from his/her health care provider before further participation in athletics is allowed.

All students must demonstrate evidence of health insurance coverage before participating in athletic activities. If the student is not insured by a family insurance policy, school insurance will be available at the student's expense

#### **Parent Permission for Student Athletes**

A student must provide his/her coach/ athletic director with a permission form signed by his/her parent or guardian before participating in the first practice.

#### **Conduct Standards**

The Superintendent/designee shall be responsible for enforcing eligibility standards prescribed in this policy. The Superintendent/designee may develop and implement other conduct rules for student athletes and participants in other co/extracurricular activities so long as they are consistent with this and other Board policies. Students participating in interscholastic athletics and other co/extracurricular activities shall be subject to all such conduct rules, and the consequences for violating them, as well as all other rules affecting the student body.

#### **Notification Policy**

The Superintendent/designee shall be responsible for notifying students and parents of the eligibility standards articulated in this policy through the student handbook, athletic code, parent and participant meetings, and/or other means.

The Board recognizes that concussions and other head injuries are potentially serious and may result in significant brain damage and/or death if not recognized and managed properly. The Board adopts this policy to promote the safety of students participating in school-sponsored extracurricular activities, including but not limited to interscholastic sports.

**TRAINING**

All school personnel including coaches and volunteer coaches must undergo annual training in the identification and management of concussive and other head injuries prior to assuming their responsibilities. The training must be consistent with such protocols as may be identified or developed by the Maine Department of Education (DOE) and include instruction in the use of such forms as the DOE may develop or require.

Coaches shall be required to undergo refresher training every two years or when protocols and/or forms have been revised.

**STUDENT AND PARENT INFORMATION**

Students and parents of students who will be participating in school-sponsored athletic activities will be provided information by the athletic director annually regarding:

- A. The risk of concussion and other head injuries and the dangers associated with continuing to participate when a concussion or other head injury is suspected;
- B. The signs and symptoms of concussion and other head injuries; and
- C. The school unit's protocols for 1) removal from the activity when a student is suspected of having sustained a concussion or other head injury, 2) evaluation, and 3) return to participation in the activity ("return to play").

The student and his/her parent(s)/guardian(s) must sign a statement acknowledging that they have received and read this information before the student will be allowed to participate in any school sponsored athletic activity.

**MANAGEMENT OF CONCUSSIVE AND OTHER HEAD INJURIES**

It is the responsibility of the coach of the activity to act in accordance with this policy when the coach recognizes that a student may be exhibiting signs, symptoms and behaviors associated with a concussion or other head injury. The coach must submit a written accident report of the incident to the athletic director, athletic trainer and school nurse of any student suspected concussion within 24 hours.

Any student suspected of having sustained a concussion or other head injury during a school-sponsored activity including but not limited to competition, practice or scrimmage, must be removed from the activity immediately. The student and his/her parent(s)/guardian(s) will be informed of the need for an evaluation for brain injury before the student will be allowed to return to the activity.

No student will be permitted to return to the activity or to participate in any other school-sponsored activity on the day of the suspected concussion. Students who have been diagnosed with a concussion and released to return to play by a licensed health care medical provider must then complete the five step gradual return to play protocol.

**Return to Play Procedures After Concussion**

These recommendations from the Consensus Statement on Concussion in Sport: The 3rd International Conference on Concussion in Sport, (Zurich 2008) provide guidance for a gradual return-to-play protocol after the student/athlete is symptom-free at rest:

Day 1: light aerobic exercise (walking, swimming, or stationary cycling) keeping exercise heart rate less than 70% of maximum predicted heart rate. No resistance training

Day 2: sport-specific exercise, any activities that incorporate sport-specific skills. No head impact activities.

Day 3: non-contact training drills

Day 4: full contact practice, participate in normal practice activities

Day 5: return to competition

If any concussion symptoms return during any of the above activities, the athlete should return to the previous level, after resting for 24 hours.

Any student who is suspected of having sustained a concussion or other head injury shall be prohibited from any school activities (physical education classes, co-curricular or extra-curricular activities, recess, class trips) until he/she has been evaluated and received written medical clearance to do so from a licensed health care provider (licensed physician, nurse practitioner, physician's assistant and Doctor of Osteopathy). More than one evaluation by the student's health care provider may be necessary before the student is cleared for full participation.

Coaches and other school personnel shall comply with the student's health care provider's recommendations and follow the RSU 10 gradual return to play protocol. No student will be permitted to return to full participation (competition) until cleared to do so.

If at any time during the return to full participation in school activities the student exhibits signs and symptoms of concussion, the student must be removed from the activity and be re-evaluated by the treating licensed health care provider.

All documentation from the licensed health care provider in regards to a concussion will be filed with the school nurse and athletic director. All medical documentation pertaining to educational restrictions will also be filed with principal and guidance counselor. Orders from the licensed health care provider will determine if there will be short-term or a long-term plan for educational restrictions.

#### **COGNITIVE CONSIDERATIONS**

School personnel should be alert to cognitive and academic issues that may be experienced by students who have suffered a concussion or other head injury, including but not limited to:

- difficulty with concentration, organization, long-and-short term memory
- and sensitivity to bright lights and sounds

School personnel should accommodate a gradual return to full participation in academic activities as appropriate, based on the recommendations of the student's health care provider and appropriate designated school personnel (e.g., 504 Coordinator).

#### **CONCUSSION MANAGEMENT TEAM**

The Superintendent will appoint a Concussion Management Team including a school administrator to be responsible, under the administrative supervision of the Superintendent, to meet annually to make recommendations related to implementation of this policy based on the generally accepted protocols. The Concussion Management Team will include the Athletic Director and school nurse and may include one or more principals or assistant principals, the school physician, athletic trainer, and such other school personnel or consultants as the Superintendent deems appropriate. The policy and/or related protocols should be reviewed when generally accepted protocols change.

## **CONCUSSION AND OTHER HEAD INJURIES INFORMATION SHEET**      RSU #10 Policy JJIF-E

***Parents and student-athletes: Please read and return page 4 (acknowledgment page).  
You must turn in a signed form prior to the start of practice.***

A concussion is a brain injury and all brain injuries are serious. They are caused by a bump, blow or jolt to the head, or by a blow to another part of the body with the force transmitted to the head. They can range from mild to severe and can disrupt the way the brain normally works. Even though most concussions are mild, all concussions are potentially serious and may result in complications including prolonged brain damage and death if not recognized and managed properly. In other words, even a "ding" or a bump on the head can be serious. You can't see a concussion and most sports concussions occur without loss of consciousness. Signs and symptoms of concussion may show up right after the injury or can take hours or days to fully appear.

If your student athlete reports any symptoms of concussion, or if you notice the symptoms or signs of concussion yourself, seek medical attention right away.

**Symptoms may include one or more of the following:**

- Headaches
- "Pressure in head"
- Nausea or vomiting
- Neck pain
- Balance problems or dizziness
- Blurred, double, or fussy vision
- Sensitivity to light or noise
- Feeling sluggish or slowed down
- Feeling foggy or groggy
- Drowsiness
- Change in sleep patterns
- "Don't feel right"
- Fatigue or low energy
- Sadness
- Nervousness or anxiety
- Irritability
- More emotional
- Confusion
- Concentration or memory problems
- Forgetting game plays)
- Repeating the same question/comment
- Amnesia

**Signs observed by teammates, parents or coaches include:**

- Appears dazed
- Vacant facial expression
- Confused about assignment
- Forgets plays
- Is unsure of game, score, or opponent
- Moves clumsily or displays poor coordination
- Loses consciousness
- Answers questions slowly
- Slurred speech
- Shows behavior or personality changes
- Can't recall events prior to hit
- Can't recall events after hit
- Seizures or convulsions
- Any change in typical behavior or personality

**What can happen if my child keeps on playing with a concussion or returns too soon?**

Athletes with the signs and symptoms of concussion should be removed from play immediately. Continuing to play with the signs and symptoms of concussion leaves the young athlete especially vulnerable to greater injury. There is an increased risk of significant damage from a concussion for a period of time after a concussion occurs, particularly if the athlete suffers another concussion before completely recovering from the first one. This can lead to prolonged recovery, or even to severe brain swelling (second impact syndrome) with devastating and even fatal consequences. It is well known that adolescent or teenage athletes will often under report symptoms of injuries, and concussions are no different. As a result, education of administrators, coaches, parents and students is the key for student athlete's safety

**If you think your child has suffered a concussion**

Any student suspected of having sustained a concussion or other head injury during a school-sponsored activity including but not limited to competition, practice or scrimmage, must be removed from the activity immediately. The student and his/her parent (s)/guardian(s) will be informed by the coach of the need for an evaluation for brain injury before the student will be allowed to return to the activity.

No student will be permitted to return to the activity or to participate in any other school-sponsored athletic activity on the day of the suspected concussion.

Any student who is suspected of having sustained a concussion or other head injury shall be prohibited from further participation in any school-sponsored student/athletic activities until he/she has been evaluated and received written medical clearance to do so from a licensed health care provider (licensed physician, nurse practitioner, physician's assistant and Doctor of Osteopathy). Students who have been diagnosed with a concussion and released to return to play/school activity by a licensed health care medical provider must then complete the five step gradual return to play procedures.

Parent(s)/guardian(s) should also inform your child's school nurse if you think that your child may have a concussion. Remember it's better to miss one game than miss the whole season. And when in doubt, the athlete sits out.

**Return to Play Procedures After Concussion**

These recommendations are from the Consensus Statement on Concussion in Sport: The 3rd International Conference on Concussion in Sport, (Zurich 2008) provide guidance for a gradual return-to-play protocol after the athlete is symptom-free at rest:

Day 1: light aerobic exercise (walking, swimming or stationary cycling) keeping exercise heart rate less than 70% of maximum predicted heart rate. No resistance training

Day 2: sport-specific exercise, any activities that incorporate sport-specific skills. No head impact activities.

Day 3: non-contact training drills

Day 4: full contact practice, participate in normal practice activities

Day 5: return to competition

If any concussion symptoms return during any of the above activities, the athlete should return to the previous level, after resting for 24 hours.

**USE OF PHYSICAL RESTRAINT AND SECLUSION**

RSU #10 Policy JKAA

The Board has adopted this policy and the accompanying procedures to implement the standards for use of physical restraint and seclusion with students, as required by state law and regulations, and to support a safe school environment. Physical restraint and seclusion, as defined by this policy, may only be used as an emergency intervention when the behavior of a

student presents an imminent risk of injury or harm to the student or others.

The Superintendent has overall responsibility for implementing this policy and the accompanying procedure, but may delegate specific responsibilities, as he/she deems appropriate.

**1. Definitions:** The following definitions apply to this policy and procedure:

- A. **Physical restraint:** An intervention that restricts a student's freedom of movement or normal access to his or her body, and includes physically moving a student who has not moved voluntarily.

**Physical restraint does not include any of the following:**

1. Physical escort: A temporary touching or holding of the hand, wrist, arm, shoulder, hip or back for the purpose of moving a student voluntarily.
  2. Physical prompt: A teaching technique that involves physical contact with the student and that enables the student to learn or model the physical movement necessary for the development of the desired competency.
  3. Physical contact: When the purpose of the intervention is to comfort a student and the student voluntarily accepts the contact.
  4. Momentarily deflecting the movement of a student when the student's movements would be destructive, harmful or dangerous to the student or others.
  5. The use of seat belts, safety belts or similar passenger restraints, when used as intended during the transportation of a child in a motor vehicle.
  6. The use of a medically prescribed harness, when used as intended; the use of protective equipment or devices that are part of a treatment plan prescribed by a licensed health care provider; or prescribed assistive devices when used as prescribed and supervised by qualified and trained individuals.
  7. A brief period of physical contact necessary to break up a fight.
  8. Restraints used by law enforcement officers in the course of their professional duties are not subject to this policy/procedure or MDOE Rule Chapter 33.
  9. MDOE Rule Chapter 33 does not restrict or limit the protections available to school officials under 20-A M.R.S.A. § 4009, but those protections do not relieve school officials from complying with this policy/procedure.
- B. **Seclusion:** The involuntary confinement of a student alone in a room or clearly defined area from which the student is physically prevented from leaving, with no other person in the room or area with the student.

**Seclusion does not include:**

1. Timeout: An intervention where a student requests, or complies with an adult request for, a break.

**II. Procedures for Implementing Physical Restraint and Seclusion**

The requirements for implementing physical restraint and seclusion, as well as incident notices, documentation and reporting are included in the accompanying procedure, JKAA-R.

**III. Annual Notice of Policy/Procedure**

RSU #10 shall provide annual notice to parents/legal guardians of this policy/procedure by means determined by the Superintendent/designee

**IV. Training Requirements**

- A. All school staff and contracted providers shall receive an annual overview of this policy/procedure.
- B. RSU #10 will ensure that there are a sufficient number of administrators/designees, special education and other staff who maintain certification in a restraint and seclusion training program approved by the Maine Department of Education. A list of certified staff shall be updated annually and maintained in the Superintendent's Office, in each school office and in the school unit's Emergency Management Plan.

**V. Parent/Legal Guardian Complaint Procedure**

A parent/legal guardian who has a complaint concerning the implementation of this policy/procedure must submit it in writing

to the Superintendent as soon as possible. The Superintendent/designee shall investigate the complaint and provide written findings to the parent/legal guardian within thirty (30) business days, if practicable.

A parent/legal guardian who is dissatisfied with the result of the local complaint process may file a complaint with the Maine Department of Education. The Department of Education will review the results of the local complaint process and may initiate its own investigation at its sole discretion. The Department shall issue a written report with specific findings to the parent/legal guardian and the school unit within 60 calendar days of receiving the complaint.

## **PROCEDURES ON PHYSICAL RESTRAINT AND SECLUSION**

RSU #10 Policy JKAA-R

These procedures are established for the purpose of meeting the obligations of RSU #10 under state law/regulations and Board Policy JKAA governing the use of physical restraint and seclusion. These procedures shall be interpreted in a manner consistent with state law and regulations.

### **I. Definitions**

For purposes of these procedures, the terms “physical restraint” and “seclusion” shall have the meanings defined in Policy JKAA. Definitions for other important terms in this procedure include:

- A. **Emergency:** A sudden, urgent occurrence, usually unexpected, but sometimes anticipated, that requires immediate action.
- B. **Risk of injury or harm:** A situation in which a student has the means to cause physical harm or injury to him/herself or others and such injury or harm is likely to occur at any moment, such that a reasonable and prudent person would take steps instantly to protect the student and others against the risk of such injury or harm.
- C. **Dangerous behavior:** Behavior that presents a risk of injury or harm to a student or others.
- D. **Serious bodily injury:** Any bodily injury that involves: (1) A substantial risk of death; (2) Extreme physical pain; (3) Protracted and obvious disfigurement; or (4) Protracted loss or impairment of the function of a bodily member, organ or mental faculty.

### **II. Physical Restraint**

To the extent possible, physical restraint will be implemented by staff certified in a training program approved by the Maine Department of Education. If untrained staff have intervened and initiated a physical restraint in an emergency, trained staff must be summoned to the scene to assume control of the situation if the emergency continues.

This procedure does not preclude law enforcement personnel from implementing physical restraints in carrying out their professional responsibilities.

#### **A. Permitted Uses of Physical Restraint**

1. Physical restraint may be used only as an emergency intervention when the behavior of a student presents a risk of injury or harm to the student or others, and only after other less intrusive interventions have failed or been deemed inappropriate.
2. Physical restraint may be used to move a student only if the need for movement outweighs the risks involved in such movement.
3. Prescribed medications, harnesses, and other assistive or protective devices may be used as permitted by Rule Chapter 33.
4. Parents may be requested to provide assistance at any time.

#### **B. Prohibited Forms and Uses of Physical Restraint**

1. Physical restraint used for punitive purposes; as a therapeutic or educational intervention; for staff convenience; or to control challenging behavior.
2. Physical restraint used solely to prevent property destruction or disruption of the environment in the absence of a risk of injury.
3. Physical restraint that restricts the free movement of a student’s diaphragm or chest, or that restricts the airway so as to interrupt normal breathing or speech (restraint-related asphyxia).
4. Physical restraint that relies on pain for control, including but not limited to joint hyperextension, excessive force, unsupported take-downs (e.g., tackles), the use of any physical structure (e.g., wall, railing or post), punching and hitting.

5. Aversive procedures, and mechanical and chemical restraints.
  - a. Aversive procedures are defined as the use of a substance or stimulus, intended to modify behavior, which the person administering it knows or should know is likely to cause physical and/or emotional trauma to a student, even when the substance or stimulus appears to be pleasant or neutral to others. Such substances and stimuli include but are not limited to infliction of bodily pain (e.g., hitting, pinching, slapping); water spray; noxious fumes; extreme physical exercise; costumes or signs.
  - b. Mechanical restraints are defined as any item worn by or placed on the student to limit behavior or movement and which cannot be removed by the student. Prescribed assistive devices are not considered mechanical restraints when used as prescribed and their use is supervised by qualified and trained individuals in accordance with professional standards.
  - c. Chemical restraints are defined as the use of medication, including those administered PRN (as needed), given involuntarily to control student behavior. Prescribed medications are not considered chemical restraints when administered by a health care provider in accordance with a student's health care plan.

### **C. Monitoring Students in Physical Restraint**

1. At least two adults must be present at all times when physical restraint is used except when, for safety reasons, waiting for a second adult to arrive is precluded by the particular circumstances.
2. The student must be continuously monitored until he/she no longer presents a risk of injury or harm to him/herself or others.
3. If an injury occurs, applicable school policies and procedures should be followed.

### **D. Termination of Physical Restraint**

1. The staff involved in the use of physical restraint must continually assess for signs that the student is no longer presenting a risk of injury or harm to him/herself or others, and the emergency intervention must be discontinued as soon as possible.
  - a. The time a student is in physical restraint must be monitored and recorded.
  - b. If physical restraint continues for more than ten (10) minutes, an administrator/designee shall determine whether continued physical restraint is warranted, and shall continue to monitor the status of the physical restraint every ten (10) minutes until the restraint is terminated.
  - c. If attempts to release a student from physical restraint have been unsuccessful and the student continues to present behaviors that create risk of injury or harm to him/herself or others, then staff may request additional assistance from other school staff, parents, medical providers, or other appropriate persons or organizations.
  - d.

## **III. Seclusion**

To the extent possible, seclusion will be implemented by staff certified in a training program approved by the Maine Department of Education. If untrained staff have intervened and initiated seclusion in an emergency, trained staff must be summoned to the scene as soon as possible.

A "timeout" where a student requests, or complies with an adult request for, a break is not considered seclusion under this procedure. Seclusion also does not include any situation where others are present in the room or defined area with the student (including but not limited to classrooms, offices and other school locations).

### **A. Permitted Uses and Location of Seclusion**

1. Seclusion may be used only as an emergency intervention when the behavior of a student presents a risk of injury or harm to the student or others, and only after other less intrusive interventions have failed or been deemed inappropriate.
2. Seclusion may be achieved in any part of a school building with adequate light, heat, ventilation and of normal room height.
  - a. Seclusion may not take place in a locked room.
  - b. If a specific room is designated as a seclusion room, it must be a minimum of sixty (60) square feet; have adequate light, heat and ventilation; be of normal room height; contain an unbreakable observation window in a wall or door; and must be free of hazardous material and objects which the student could use to self inflict bodily injury.
3. Parents may be requested to provide assistance at any time.

## **B. Prohibited Uses of Seclusion**

1. Seclusion used for punitive purposes; as a therapeutic or educational intervention; for staff convenience; or to control challenging behavior.
2. Seclusion used solely to prevent property destruction or disruption of the environment in the absence of a risk of injury.

## **C. Monitoring Students in Seclusion**

1. At least one adult must be physically present at all times to continuously monitor a student in seclusion. The adult, while not present in the room or defined area, must be situated so that the student is visible at all times.
2. The student must be continuously monitored until he/she no longer presents a risk of injury or harm to him/herself or others.
3. If an injury occurs, applicable school policies and procedures should be followed.

## **D. Termination of Seclusion**

1. The staff involved in the seclusion must continually assess for signs that the student is no longer presenting a risk of injury or harm to him/herself or others, and the emergency intervention must be discontinued as soon as possible.
  - a. The time a student is in seclusion must be monitored and recorded.
  - b. If seclusion continues for more than ten (10) minutes, an administrator/designee shall determine whether continued seclusion is warranted, and shall continue to monitor the status of the seclusion every ten (10) minutes until the restraint is terminated.
  - c. If attempts to release a student from seclusion have been unsuccessful and the student continues to present behaviors that create a risk of injury or harm to him/herself or others, then staff may request additional assistance from other school staff, parents, medical providers, or other appropriate persons or organizations.

## **IV. Notification and Reports of Physical Restraint and Seclusion Incidents**

For the purposes of this procedure, an “incident” consists of all actions between the time a student begins to create a risk of harm and the time the student ceases to pose a risk of harm and returns to his/her regular programming.

### **A. Notice Requirements**

After each incident of physical restraint or seclusion:

1. A staff member involved in the incident shall make an oral notification to the administrator/designee as soon as possible, but no later than the end of the school day.

For students in out-of-district placements, the entity must make this report to the sending school within 24 hours or by the next business day.

2. An administrator/designee shall notify the parent/legal guardian about the physical restraint or seclusion (and any related first aid provided) as soon as practical, but within the school day in which the incident occurred. The administrator/designee must utilize all available phone numbers or other parent/legal guardian is unavailable, the administrator/designee must leave a message (if the parent/legal guardian has a phone and message capability) to contact the school as soon as possible. The parent/legal guardian must be informed that written documentation will be provided within seven (7) calendar days.
3. If the physical restraint or seclusion incident occurred outside the school day, the notifications must be made as soon as possible and in accordance with the RSUs usual emergency notification procedures. Emergency procedures should be consistent with this requirement.
4. If serious bodily injury or death of a student occurs during the implementation of physical restraint or seclusion, the RSUs emergency notification procedures shall be followed and an immediate administrator/designee shall notify the Maine Department of Education within twenty-four (24) hours or the next business day.

### **B. Incident Reports**

Each use of physical restraint or seclusion must be documented in an incident report. The incident report must be completed and provided to immediate administrator or building administrator and a copy to the

Superintendent/designee as soon as practical, and in all cases within two (2) school days of the incident. The parent/legal guardian must be provided a copy of the incident report within seven (7) calendar days of the incident.

For students in out-of-district placements, the entity must make the incident report to the sending school.

The incident report must include the following elements:

1. Student name;
2. Age, gender and grade;
3. Location of the incident;
4. Date of the incident;
5. Date of report;
6. Person completing the report;
7. Beginning and ending time of each physical restraint and/or seclusion;
8. Total time of incident;
9. Description of prior events and circumstances;
10. Less restrictive interventions tried prior to the use of physical restraint and/or seclusion and, if none were used, the reasons why;
11. The student behavior justifying the use of physical restraint or seclusion;
12. A detailed description of the physical restraint or seclusion used;
13. The staff person(s) involved, their role in the physical restraint or seclusion, and whether each person is certified in an approved training program;
14. Description of the incident, including the resolution and process of returning the student to his/her program, if appropriate;
15. Whether the student has an IEP, 504 Plan, behavior plan, IHP (individual health plan) or any other plan.
16. If a student and/or staff sustained bodily injury, the date and time of nurse or other response personnel notification and any treatment administered;
17. The date, time and method of parent/legal guardian notification;
18. The date and time of administrator/designee notification.
19. Date and time of staff debriefing.

Copies of the incident reports shall be maintained in the student's file and in the school office.

#### **V. School Unit Response Following the Use of Physical Restraint or Seclusion**

- A. Following each incident of physical restraint or seclusion, an administrator/designee shall take these steps within two (2) school days (unless serious bodily injury requiring emergency medical treatment occurred, in which case these steps must take place as soon as possible, but no later than the next school day):
  1. Review the incident with all staff persons involved to discuss: (a) whether the use of physical restraint or seclusion complied with state and school board requirements and (b) how to prevent or reduce the need for physical restraint and/or seclusion in the future.
  2. Meet with the student who was physically restrained or secluded to discuss: (a) what triggered the student's escalation and (b) what the student and staff can do to reduce the need for physical restraint and/or seclusion in the future.
- B. Following the meetings, staff must develop and implement a written plan for response and de-escalation for the student. If a plan already exists, staff must review it and make revisions, if appropriate. For the purposes of this procedure, "de-escalation" is the use of behavior management techniques intended to cause a situation involving problem behavior of a student to become more controlled, calm and less dangerous, thus reducing the risk of injury or harm.

#### **VI. Procedure for Students with Three Incidents in a School Year**

The school unit will make reasonable, documented efforts to encourage parent/legal guardian participation in the meetings required in this section, and to schedule meetings at times convenient for parents/legal guardians to attend.

##### **A. Special Education/504 Students**

1. After the third incident of physical restraint and/or seclusion in one school year, the student's IEP or 504 Team shall meet within ten (10) school days of the third incident to discuss the

incident and consider the need to conduct an FBA (functional behavioral assessment) and/or develop a BIP (behavior intervention plan), or amend an existing one.

#### **B. All Other Students**

1. A team consisting of the parent/legal guardian, administrator/designee, a teacher for the student, a staff member involved in the incident (if not the administrator/designee or teacher already invited), and other appropriate staff shall meet within ten (10) school days to discuss the incidents.
2. The team shall consider the appropriateness of a referral to special education and, regardless of whether a referral to special education is made, the need to conduct an FBA (functional behavioral assessment) and/or develop a BIP (behavior intervention plan).

- (b) The Superintendent shall review the cumulative reports and identify any areas that could be addressed to reduce the future use of physical restraint and seclusion.

#### **B. Reports to Maine Department of Education**

1. The Superintendent shall submit an annual report to the Maine Department of Education on an annual basis that includes the information in Section 7.A.1 above.

## **PHYSICAL EXAMINATIONS OF STUDENTS**

RSU #10 Policy JLCA

A physical examination is required every two years for all interscholastic athletic program participants. According to the MPA handbook appendix P a licensed physician, nurse practitioner, physician's assistant, and Doctor of Osteopathy are the only approved examiners. The School Nurse will review the Physical Exam form and the athletic director will maintain the updated electronic student physical exam list.

Parents/guardians will be required to complete a Parental Approval/Sports Medical update form yearly. The sports medical update form will be reviewed by the athletic director, kept on file in the athletic director's office and accessible for coaches at sporting events in the event of an emergency.

## **COMMUNICABLE / INFECTIOUS DISEASE POLICY**

RSU #10 Policy JLCC

Communicable disease is defined as: a disease or condition that may cause serious illness, serious disability or death, the infectious agent of which may pass or be carried, directly or indirectly, from the body of one person to the body of another or through a contaminated food or food product.

Students with a diagnosed communicable disease or with symptoms of a communicable disease, will be temporarily excused from school. The parent/guardian or emergency contact will be notified and asked to take the student from school whenever

possible. While the student is waiting at school, the student will be isolated from other students.

Students who have a fever of 100 degrees or higher, are vomiting, or have diarrhea, will be sent home. Students should be symptom free for 24 hours without the aid of medication before returning to school.

Students returning to school after a diagnosed communicable disease should be symptom free for at least 24 hours without the aid of medication unless the primary care provider provides written documentation approving school attendance before symptoms have abated.

The school administration may communicate with parents and/or exclude any student who poses a public health threat [MRSA 20-A § 6301 (2)].

The school will notify the Maine Bureau of Health of any reportable disease. [MRSA 20-A § 6301 (5-A)] The list of reportable communicable diseases can be found at <http://www.state.me.us/dhs/boh/ddc/Disease/20Reporting.htm>.
